THE GREAT WORLD WAR

AN ILLUSTRATED REVIEW

WHEN the World War ended on November 11th, 1918, the armed forces of 25 nations of the globe had been hurling their armies against each other for more than four years in the most colossal struggle of history. After a conflict without parallel, it ended in its 52d month with a casualty total nearing the ten million mark.

Set off by the murder of an ordinary Austrian archduke on June 28th, 1914, by a Serbian political fanatic, the conflagration which had threatened the peace of Europe for decades was thus destined to embroil the leading powers of the world in the most costly and bloody strife known to man.

After a month's diplomatic argument over the affair, Austria formally opened hostilities with her declaration of war on Serbia. General mobilization followed quickly in Russia; a "state of war" was almost immediately declared in Germany. Then on August 1st Germany declared war on Russia, following this with an ultimatum to Belgium demanding that her troops be given free passage across that country. On August 3d, the Teutons included France on their list of enemies. This was followed next day by an ultimatum to Germany from Great Britain demanding that the neutrality of Belgium be respected. When this assurance was not granted by Emperor Wilhelm, Great Britain

declared war on Germany. A quick succession of war declarations finally involved the greater share of Europe by the end of the summer.

Mad with the ruthless spirit of conquest the Central Powers marched their armies off to war in grand fashion, boasting that they would return by Christmas time, the conquerors of Europe. Their amazing preparations for the dream of world power almost brought within their grasp the greedy ambition of the Junkers.

The initial successes of the German army in its advance through Belgium and on toward Paris astounded the world. England and France reeled and staggered before the terrific onslaught of the famous Prussian Guards and the other crack armies of the Central Powers. Swept off her feet almost by the spectacular aggression of the enemy, the fate of France virtually hung from a thread as the invaders triumphantly swept on and on.

Early in September, when they were practically within reach of Paris, the tide was turned against them in the battle of the Marne, September 6-10. French themselves attribute their good fortune at this point to the hand of the Almighty rather than to their superior military strength at the time. This marked the enemy's point of farthest advance.

The atrocities of the advancing Huns during the months of their early triumphs and conquest have been called infamous by conservative journalists and correspondents. Suffice to say, their bloodthirsty ambition to rule and conquer the world knew no bounds, and that their acts and deeds of disgrace will forever remain one of the darkest of the many blotches brought on the German people during the European war.

Believing that the United States had no part to play in the war at that time, President Woodrow Wilson, on August 4th, 1914, officially proclaimed the neutrality of the United States. The war was thus confined to Europe for many months, a struggle mainly between the two great European Alliances—the Triple Alliance composing Germany, Austria Hungary and Italy, against the Triple Entente, composing England, Russia and

France. Italy, originally a member of the Triple Alliance, but later one of the chief powers of the Allies, did not enter the war until 1915. She then declared war on all of Germany's Allies, but did not break with Germany herself until late in 1916. Before the war she was a member of the Triple Alliance with Germany and Austria but severed this connection to fight with the Allies.

After the marvelous advances of the first year, the great battle line in Europe remained practically stationary for nearly three years and extended over more than 300 miles. The large armies of each force fought doggedly, suffered heroically and died willingly, in a mighty death-grip whose battles surpassed the most famous of previous wars for loss of life and destruction of property.

The superb Armies of the Russians in the Eastern theater kept the attention of a large German force occupied and away from the Western Front. This fact aided the Allies tremendously and probably prevented a German Peace in the second and third years of the War.

It was while France, England and Italy were staggering before the last big offensive of the enemy early in 1918 that America's force was thrown into the balance in substantial numbers.

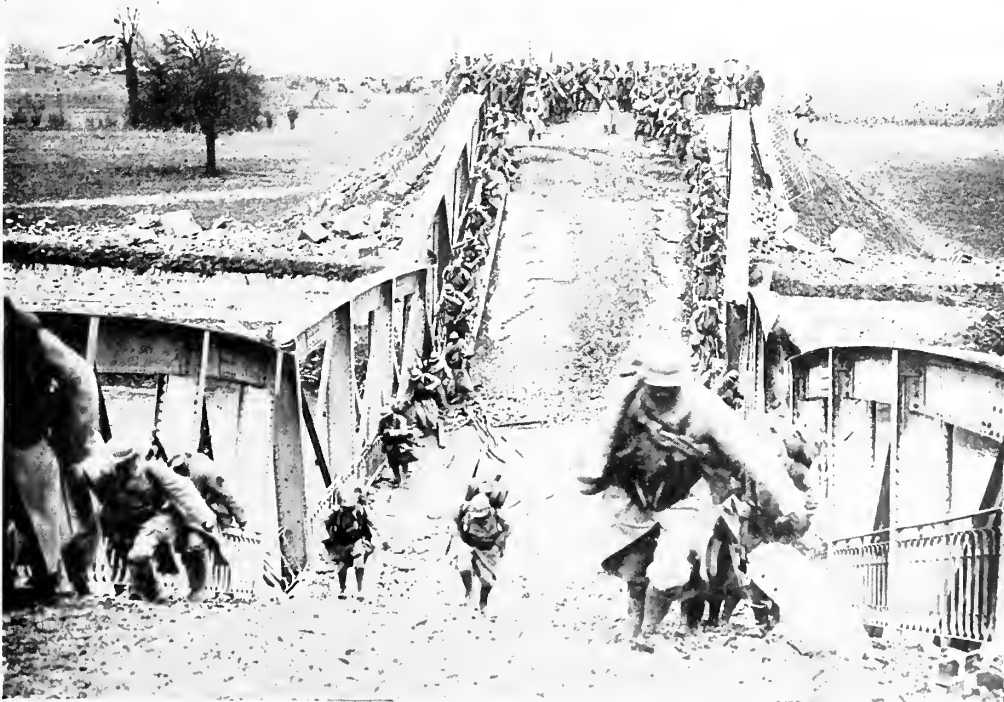

Her declaration of war against Germany on April 6th, 1917, grew out of the Central Powers' failure to recognize the rights of neutrals on the high seas. Repeatedly the rights of the United States were violated, and just as repeatedly Germany refused to discontinue her ruthless program of submarine warfare against the world. The sinking of the Lusitania on May 7th, 1915, without warning and with the loss of 1154 lives, 114 of whom were Americans, was regarded by a great many as just cause for a declaration of war against Germany. The President and Congress believing differently, failed to act, and it was not until more sinkings of women and children that the United States decided to step into the breach herself.

Regarded as a mere "bluff" by her adversaries, the United States' entrance apparently failed to cause undue anxiety in Berlin. With an unprepared democracy for another enemy in which a great many were believed to have been opposed to war, Germany had little cause for worry, she declared.

But America went to work. The act produced an electrical effect on her people and almost instantly united her various factions, creeds, parties, and nationalities for one purpose—to crush Germany and her Allies. She became a workshop, with no hours, in her determination to end the European fight victoriously, and thus save democracy for the world. Every effort was bended to the cause, every penny of wealth was eagerly held ready for the call, and every atom of energy was expended in her feverish haste to redeem mankind.

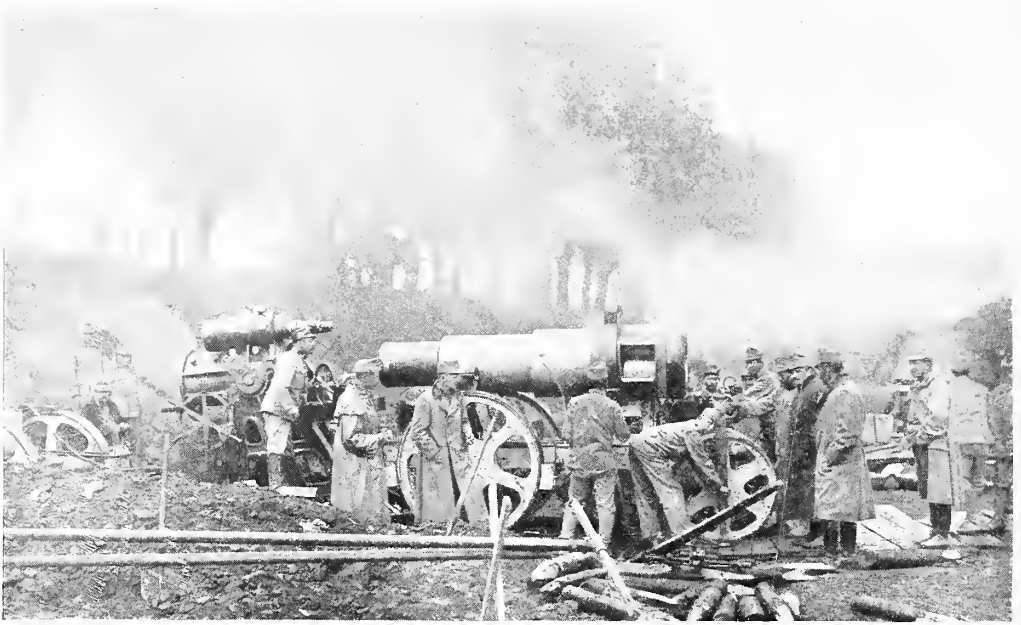

Her sons by the hundreds of thousands rushed to the colors, as their fathers did in the wars of their day, to see another victory added to the flag which had never known defeat. That the distribution of soldiers throughout the land might be as nearly equitable as possible, Congress passed the Selective Service Act in May, 1918, the greatest mobilization machinery developed by any of the 25 nations at war.

Naturally there were obstacles and delays. A nation's task in rising up over night to send a formidable force three thousand miles overseas to fight for world freedom is not the kind that can be accomplished without some disorder and delay. But loyalty and union did it, and on June 26th, 1917, only two months after the declaration of war, the first American doughboy landed on French soil. On November 3d, 1917, the Yanks had their first clash with the Germans. On January 31st, 1918, a report reached America that American infantrymen were occupying first line trenches for the first time.

By this time the United States had declared a 'state of war existing with Austria Hungary, Germany's chief ally, and had swung her domestic machinery into the greatest war machine conceivable. She had begun to raise by popular bond subscriptions billions of dollars to supply guns and munitions, and food and clothes, for the boys who were going over to France to do the job.

Four Liberty Loans were floated during the war, and the total subscriptions to these amounted to between eighteen and nineteen billions of dollars. This amount was taken by more than 50 million subscribers, and was to be only an insignificant factor in the financing of the war, according to the Treasury Department. This cost when compared with the total cost of the Civil War for four years—approximately \$4,000,000,000—is proof enough that the World War was not comparable with any previous war in history. In April, 1919, following the armistice, another Fifth or Victory Loan of approximately the same dimensions as the Fourth, was floated. The wonderfully prompt and generous response of the nation to each of the calls of the Liberty Loans was one of the greatest sources of inspiration for the men in uniform who had gone to fight for those at home. The same patriotic generosity that marked the success of the Liberty Loan was evident in each of the scores of war work drives that were conducted for the various relief and welfare organizations.

Food conservation—conservation of man-power, the work or fight order, the noble, work of the women who sewed and knitted night and day for the Red Cross and the boys, the curtailment of profits and the simple economy was practiced by rich and poor alike, were but a few of the many war time measures that characterized the life of America's hundred and some million during the year and a half during which she was at war. No history of that war will ever have room for a just story of the part played by the loyal home folks—those who waited and prayed, and worked and gave, to keep the home fires burning.

Foremost among the initial problems of America, after preliminary plans for the raising of her army had been laid, was the problem of transporting them to France, so that their strength might be thrown against the Hun on the battlefield. Shipping was not available, and even though it was being increased at maximum capacity, still there was not more than half as much as was needed to transport the men in the numbers they were being trained and in the numbers they were needed by France and England and Italy.

England gladly placed her available shipping at the disposal of the United States, and before the war had ended she had carried more than one million Yanks to the side of her own men and those of the French, or nearly half of those who had gone overseas. The importance of the United States Navy in the war can hardly be exaggerated. Within less than a month after hostilities were declared, she had sent a detachment of destroyers to European waters. By October, 1918, there were 338 ships of all classes flying the American flag in foreign waters. The operations of the Navy during the war covered the widest scope in its history. They operated in European waters from the Mediterranean to the White Sea. At Corfu, Gibraltar, in the Bay of Biscay, on the Irish Coast, at the English Channel ports, in the North Sea and at Archangel, they did creditable work. This service was not as brilliant perhaps as that of the army, because the nature of its vital work kept it from the front. Even though its activities were probably less glorious, still they were none the less important and necessary to the cause.

Naval men served on nearly 2000 craft that plied the waters of the globe, on submarines that had no fear of the under-sea perils, and in aviation where men of courage fought and prevented surprise attacks with new-found weapons.

In diplomacy, in investigation at home and in all parts of the world by naval officers and civilian agents, in protecting industry from enemy spies, in promoting new industries and enlarging older ones to meet war-time needs—these are a few of the accomplishments that are outstanding in the part played by the Navy in winning the war.

Shortly after the declaration of war, the submarine problem had become so acute and the merchant ship losses so great, it became necessary to adopt more effective methods in dealing with the problem and making shipping safer. The system of convoy was adopted at the suggestion of President Wilson. This, although it slowed up shipping by fully twenty percent, enabled a comparatively safe passage of troops and was probably the greatest stroke of the Navy during the war.

During all the time the United States was engaged in the war the enemy's naval forces, with the exception of the submarines, were blockaded in his ports. This, of course, prevented naval engagements of a major character. The destroyers, submarine chasers and patrol vessels, however, waged an unceasing offensive against the submarine menace to shipping and troop convoy, and only three vessels were sunk. These were the *Antilles*, the *President Lincoln* and the *Covington*. Each was struck on her return voyage, so that the loss of life was comparatively small. Only three fighting vessels were lost as the result of enemy action—a patrol ship, a torpedo boat destroyer and a cruiser. The other transports and destroyers struck by the enemy during the war reached port without loss of life. Other Transports carrying United States soldiers went down but these were being convoyed by the British Admiralty. Chief among these was the *Tuscania*, sunk off the Coast of Ireland February 5th, 1918, with a loss of 110 lives.

The most serious loss of life in the navy as a result of its war-time activity resulted when 111 officers and men of the Coast Guard cutter *Tampa* perished when their vessel was sunk in Bristol Channel, England, in September, 1918. The *Tampa* had been doing escort duty in the transport service. It had gone ahead of the convoy and was sunk soon after leaving the party.

With its record of phenomenal transport service in protecting troops and shipping against the enemy submarine offensive; its splendid co-operation with the British Fleet in keeping the German navy in port and Germany herself blockaded; its stellar work with the giant 14 inch long range guns at the front; and its subsequent spectacular feat in first bridging the Atlantic by air, the United States Navy had a share in the World War which although as previously stated is seldom characterized as brilliantly as that of the Army and Marines, still was equally important and essential in keeping the war wheels turning victoriously.

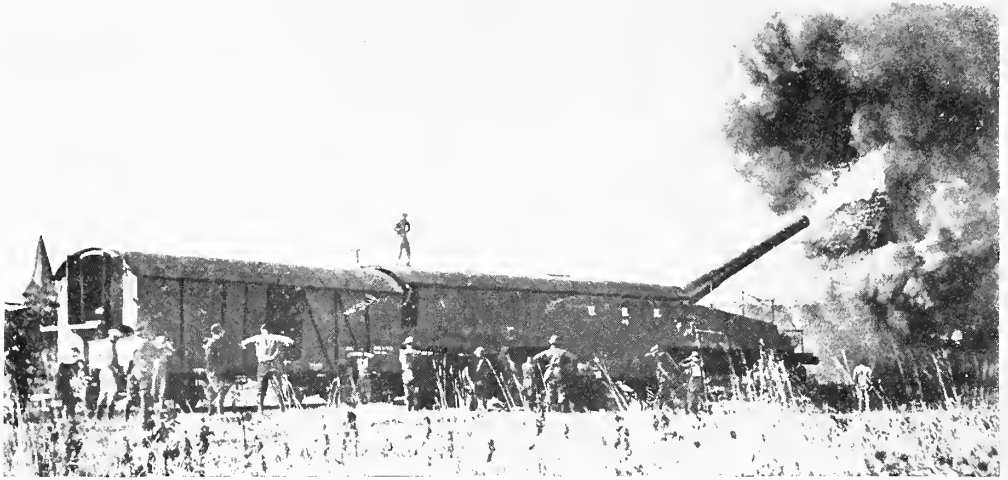

The story of the activities of America's two million doughboys and marines in France is one which should be told in volumes rather than in paragraphs. From the time of their first clash with the Germans on November 3d, 1917, until they "let go" the last unwelcome guests against Fritz's lines early November 11th, 1918—their deeds are a succession of courageous and brilliant performances of duty.

"When I think of their heroism, their patience under hardships, and their unflinching spirit of offensive action, I am filled with emotion which I am unable to express," General

John J. Pershing declared in commending the officers and soldiers of the line of the American Army. "Their deeds are immortal, and they have earned the eternal gratitude of our country."

This simple tribute to the brave American lads who fought and died in France is indicative of America's reverence for her heroic armies. Their glory and fame will always live by the side of the deeds of their forbears in previous wars.

In May, 1917, shortly after war was declared, General Pershing, well-known for his punitive expedition into Mexico, was selected by the War Department to command the American Expeditionary Forces that were to go to France. After gathering about him a small staff the General set sail. His reception in both England and France was only equalled by the readiness of the commanders of both armies to co-operate with the United States in the prosecution of the war, according to the General's own report.

His general staff was organized in a short time and detailed plans worked out for the organization and training of the millions of American soldiers who were expected in France to help finish the Hun. Training areas, designed to give the final seasoning to fresh troops arriving from the States before their entry into the front lines, and officers schools for the various arms of the service were established.

Extensive construction provided vast warehouses, supply depots, munition storehouses, and the like for the huge task ahead. Although France offered much in the way of both ordnance and quartermaster property for use by the American Army, still enormous quantities of materials of all kinds had to be brought across the Atlantic.

Flocking into the Army from civil life were thousands of professional and business men with splendid talent along the lines needed to build up this immense service of supply that was to keep the A. E. F. in action. To meet the shortage of supplies due to lack of shipping, representatives of the various supply departments were constantly in search of supplies and materials in Europe. A general purchasing agency was pro-

vided, in order to better co-ordinate the purchasing and to prevent competition between departments of the army. So successful was this system in the American Army that it was almost universally adopted by the armies of the Allies before the war had ended.

"Our entry into the war found us with few of the auxiliaries necessary for its conduct in the modern sense," General Pershing declared in his official report. "Among our most important deficiencies in material were artillery, aviation and tanks. In order to meet our requirements as quickly as possible we accepted the offer of the French Government to provide us from their own factories with the necessary artillery equipment for thirty divisions. In aviation we were in the same situation and here again the French Government came to our aid until we were able to get our own air service program under way. The necessary planes to train the air service personnel were provided and we secured from the French a total of 2676 pursuit, bombing and observation planes. The first planes to arrive from America came in May, 1918, and a total of 1379 were received during the war. The first American squadron completely equipped by American production, including airplanes, crossed the German lines on August 7th, 1918. For tanks we also were compelled to rely upon the French. We were less fortunate here, however, for the reason that the French were scarcely able to meet their own production requirements in this respect. It should be remembered by every American that the French Government always took a most liberal attitude in endeavoring to supply the shortages existing in the American Army."

Speaking of the soldiers in Europe General Pershing outlines with words of praise the work done by the various welfare organizations and of the responsive attitude found among the soldiers by these organizations.

"The welfare of the troops touches my responsibility as Commander-in-Chief to the mothers and fathers and kindred of the men who went to France in the impressionable period of youth. They could not have the privilege accorded the soldiers of Europe

during their leaves of visiting their relatives and renewing their home ties. Fully realizing that the standard of conduct that should be established for them must have a permanent influence on their lives and the character of their future citizenship, the Red Cross, the Young Men's Christian Association, the Knights of Columbus, the Salvation Army and the Jewish Welfare Board, as auxiliaries in this work, were encouraged in every manner possible. The fact that our soldiers, in a land of different customs and language, have borne themselves in a manner in keeping with the cause for which they fought, is due not only to the efforts in their behalf, but much more to other high ideals, their discipline, and their innate sense of self-respect. It should be recorded, however, that the members of these welfare societies have been untiring in their desire to be of real service to our officers and men. The patriotic devotion of these representative men and women has given a new significance to the Golden Rule, and we owe to them a debt of gratitude that can never be entirely repaid."

The First Division of the American Army, after finishing its preliminary training behind the lines, went to the trenches for the first time in October, 1917, as the first contribution to the fighting forces of the Allies. By the time that the great German offensive in Picardy began, on March 21st, 1918, the American army had four experienced divisions in the line. The great crisis that this drive developed, however, made it impossible for the Americans to take over a sector by themselves. Gradually, as their numbers increased and more reserves, fresh from the States, were placed in training behind the lines, the American boys went in in substantial numbers. Already they had displayed their splendid fighting qualities and had demonstrated that as soldiers they had no superiors. Incidentally, it did not take them long to convince the enemy that contrary to their own opinions, they themselves were not invincible.

On August 30th, 1918, the American forces took over the first American sector, in preparation for the St. Mihiel offensive. The American line was soon extended across the Meuse River to the west edge of the Argonne Forest. The concentration of tanks, aviation units, artillery equipment, and materials of all kinds for this first great American offensive was enormous. The scores of elements of a complete army were moulded together, with American railroad and American service of supply units throughout. The concentration included the bringing up of approximately 600,000 troops. The French Independent Air Force, together with British bombing units and American Air forces, placed the greatest aviation personnel that ever took part in any Western Front offensive under the direct command of General Pershing.

On the day after they had taken the St. Mihiel Salient a great share of the corps and army artillery that had operated in that offensive were on the move toward the area back of the line between the Meuse River and the western edge of the Argonne. The German General Staff was well aware of the consequences of an American success along this line, and it was determined to use every available American division in an effort to force a decision at this point. The attack began on September 26th. The work of the American army and of the American engineers in this drive will forever remain in

the memory of generations to come. Forcing their way through the densely wooded and shell torn areas, their fight was one of the most brilliant battles of the war. The offensive was maintained until October 4th in the face of innumerable wooded patches of snipers and concealed machine gunners.

Fresh troops with little experience were thrown in with their seasoned comrades, who had become veterans over night with this most crucial battle as their teacher. The second phase began with a renewed attack all along the front on October 4th. More positions were taken with a precision and speed that always characterized the Yank army. Their dogged offensive was wearing down the enemy, who, continuing desperately by throwing his best troops against them, was helpless before the spectacular advance.

At this juncture two divisions were dispatched to Belgium to help the French army near Ypres. On October 23d, the last phase of the Meuse-Argonne offensive began. Violent counter attacks by the enemy lost him heavily, while a regrouping of the American force was going on for the final drive. Plain evidences of loss of morale in the enemy forces gave our men added courage and spirit, and finally, using comparatively fresh divisions, the last advance was begun on November 1st. It was apparent at this time that the end was near for the Boche. Our increased artillery support did remarkable work in supporting the infantry, which by its dashing advance of the several weeks preceding had destroyed the Hun's will to resist.

Between September 26th and November 6th they had taken 26,059 prisoners and 468 guns on this front.

The divisions engaged in this, the most important of America's battles in the European war, were the 1st, 2d, 3d, 4th, 5th, 26th, 28th, 29th, 32d, 33d, 35th, 37th, 42d, 77th, 78th, 79th, 80th, 82d, 89th, 90th and 91st. Many of these divisions remained in line for a length of time that required nerves of steel while still others were put back in the line after only a few days of rest.

When the armistice was signed following a complete routing of the enemy by Americans in the Argonne Forest there were in France, according to General Pershing, approximately 2,053,347 troops, less the casualties. Of this total there were 1,338,169 combatant troops. Up to November 18th the losses were: Killed and wounded, 36,145; died of disease, 14,811; deaths unclassified, 2,204; wounded 179,625; prisoners, 2,163; missing in action 1,160. As against this casualty total, the American forces captured about 44,000 prisoners and 1,400 guns, howitzers and trench mortars.

In this short summary of the principal activities of the United States' part in the great war it is obviously impossible to more than skim over the various features of the great war machinery. The heroism and gallantry of the boys who fought and died over there; the unceasing devotion and courage of the parents and citizens at home who stood by them so unselfishly; and the determination of everyone, young and old, to unite for the common cause, setting aside their personal desires and interests, was responsible for the glorious victory in which America was so conspicuously instrumental in bringing about. Outstripping a hundredfold the dimensions of any previous war of the United

States, the task accomplished was a revelation to all when viewed in retrospect. The accomplishments of the Liberty Loans, the devotion of the millions of mothers and sisters in behalf of the Red Cross, the wonderful response of the country to the operation of the Selective Service Act in raising an army of millions—the sacrifices of all, at home and abroad, were universal during the year and a half at which America was at war.

Loyalty and love of country were terms with new meanings. Sedition was lurking only here and there, and this was promptly done away with through the efficient secret service department and popular opinion. The four million American boys who were under arms, many of them at the front and the remainder eager for the chance to jump in, convinced the world that the fighting blood that gave birth to their nation had not been diluted through the riotous living of a century. The brave lads who gave their lives and are now buried over there went to their fate with hearts full of joy, and in a manner that gave courage to the veterans of four years who fought beside them. And their brave mothers in the States who waited in vain for peace to bring their sons back to them, made the greatest sacrifices within their power with a courage and willingness that was unequalled even by the Spartans themselves.

When the history of the great European struggle is permanently written, there will be no more brilliant chapters than those telling of the part played by the United States of America in stamping out militaristic autocracy from the world.

THEY LIE IN FRANCE
WHERE LILIES BLOOM

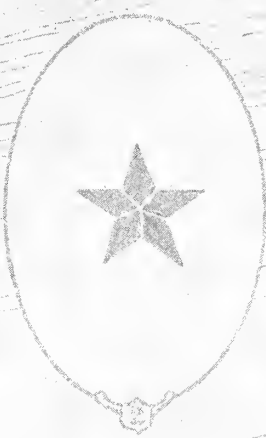

They lie in France
Where lilies bloom,
Those flowers pale
That guard each tomb
Are saintly souls
That smiling stand
Close by them in
That martyred land,

And mutely there the long night shadows creep
From quiet hills to mourn for them who sleep,
While o'er them through the dusk go silently
The grieving clouds that slowly drift to sea,
And lately round them moaned the winter wind
Whose voice, lamenting, sounds so coldly kind,
Yet in their faith those waiting hearts abide
The time when turns forever that false tide.

In France they lie
Where lilies bloom,
Those flowers fair
For them made room.
Not vainly placed
The crosses stand
Within that brave
And stricken land;
Their honor lives,
Their love endures,
Their noble death
The right assures,

For they shall have their hearts' desire
They who, unflinching, braved the fire,
Across the fields their eyes at last shall see
Through clouds and mist the hosts of victory.

The HONOR ROLL

“The world must be made safe for democracy. Its peace must be planted upon the tested foundations of political liberty. We have no selfish ends to serve. We desire no conquest, no dominion. We seek no indemnities for ourselves, no material compensation for the sacrifices we shall freely make. We are but one of the champions of the rights of mankind. We shall be satisfied when those rights have been made as secure as the faith and the freedom of nations can make them. * * * *

To such a task we can dedicate our lives and our fortunes, everything that we are and everything that we have, with the pride of those who know that *the day has come when America is privileged to spend her blood and her might for the principles that gave her birth and happiness and the peace which she has treasured.*”

HOME ACTIVITIES

HOME ACTIVITIES

The preceding pages cover the photographic and biographic accounts of the boys from Bureau County who served in the Great War. At the time the compilation of the Honor Roll was started there was some reluctance on the part of the service men, as they were modest and not enthusiastic to see their pictures or war records in print. They were reserved and extremely modest in speaking, of what they saw, did or thought, but everywhere in America this seems to have been the attitude of the boys, and it was so universal that it may be called a national trait of our new soldiers. Now that the job is finished they have the satisfaction of knowing that they upheld the honor and glory of their country and are entitled to that contentment that comes from service well performed.

The citizens of Bureau County are justly proud of the record of their county in the great war. In men, money and materials, in whole-hearted response to every call for service or sacrifice, Bureau County gave to the nation and to the nation's cause on a scale surpassing even her own best traditions and her rank in the counties of the State. It is an impossible task to state exactly in any record just what every person's part was in the world war; for the wartime achievements of the county were the composite result of earnest efforts of thousands of devoted men, women and children in all walks of life. Just what our contribution was to the final victory, cannot be weighed, measured, or even approximately estimated, but it is certain that we did our full share.

On April 2, 1917, the Congress of the United States was assembled in extraordinary session and addressed by the President who asked the Congress to declare that a state of war existed between the United States and Germany. A joint resolution to that effect was adopted by the Senate of the United States on April 4, 1917, and by the House of Representatives of the United States on April 6, 1917. On that same date—April 6, 1917—the President issued a

proclamation giving effect to the joint resolution of the Congress.

At the time America entered the fight, the war spirit of the people had not been aroused fully; essential war duties and sacrifices were not clearly sensed. Sedition or disloyalty was not general, but there was considerable indifference and hesitancy in personal attitude toward the war. Bureau County has a cosmopolitan population and when the war started in Europe, there were in Bureau County a multitude of interests. As was natural in a population composed of so many nationalities, there were almost as great a variety of opinions on the subject as there were languages to express them, and it was impossible to keep the people from "taking sides."

When the United States was finally forced into war, there was a minority of citizens who were opposed to our taking part in it, and who contended that we should continue neutral. But most of this feeling was not so much antagonistic to the aims and purposes of the Allied Nations and of the United States, but rather was due to lack of a clear understanding of the situation.

The newspapers of Bureau County immediately began to arouse the spirit of the people, to make known the causes of war, the inevitability of our country's participation in it and the necessity for an aggressive, solidified patriotism to win. The county editors as a body immediately enrolled as American propagandists. From the beginning they gave most valuable help in carrying out all requests of the national government, in heartening the people to bear gracefully the burdens of war, in fortifying the courage of the public and in discouraging all forms of disloyalty and combating enemy propaganda. When these editors enlisted, it was for the duration of the war. They continued their patriotic efforts, with unabated zeal to the end, regardless of the strain put upon them by war conditions, giving their space generously in behalf of every undertaking of the government, and week by week, exhorting the whole citizen-

The HONOR ROLL

ship to increased effort and unwavering support of the Allied cause.

The service they rendered the nation was of inestimable value.

In Bureau County there were a multitude of men and women who were engaged in various kinds of war work, but space will not permit a detailed report of individual activities. They responded promptly and effectively to every call upon their time and energies, and those calls were many. There were formed numerous voluntary organizations to consolidate patriotism, provide war relief, encourage thrift, and serve other war purposes. These organizations were eventually merged with State and National organizations and did excellent work. Besides the specific war tasks laid upon them by their parent organizations, they were largely the local representatives, organizers, and workers for Liberty Loans, Red Cross, Salvation Army, Knights of Columbus, Y. M. C. A., United War Work, Council of Defense, and other work, war relief or philanthropic undertakings. Wherever they

went and in all that they did, practical patriotic thought and action were advanced and public morale was strengthened.

Consequently, acceptance of the draft law, of food and fuel restrictions, of food production requirements, of amusement curtailment, of restrictions upon business and industry, and of money demands in unheard of amounts, were all accepted, not only without protest, but heartily. The men and women who carried on this home service work furnished one of the most inspiring features of the war period. Too much cannot be said in praise of them. Without thought of their own private interests and without hope of reward or even recognition of personal sacrifice and effort they gave their time and energy and their best thought without stint. They were as truly and as usefully in the service of their state and their country as were those who bore official titles or who wore the nation's uniform. Only the high spots in the general operations and composite results of the work done by these home service volunteers are covered in the following pages.

LOCAL EXEMPTION BOARDS

In the State of Illinois, ninety-five Exemption Board Districts were organized, following the act of Congress of May 18, 1917, in passing the Selective Service Act, requiring all men between the ages of 21 and 31, to register for military service. Bureau County was divided into two Exemption Board Districts. Board No. 1 had jurisdiction over registrants in the townships of Fairfield, Walnut, Greenville, Ohio, Gold, Manlius, Bureau, Dover, Mineral, Concord, Wyand, Princeton, Neponset, Macon, Indiantown, Arispie, Milo, Wheatland. Board No. 2 had jurisdiction over the townships of La Moille, Clarion, Berlin, Westfield, Selby, Hall, Leepertown.

June 5, 1917, was designated by the Government as Registration day throughout the United States. In Bureau County the regular election polling places were used as registration headquarters for the men residing in the various precincts. On registration day 4,047 men registered in Bureau County.

Following the registration, Governor Lowden named the personnel of the two local Exemption

Board No. 1 were at the Circuit Court House in Princeton, and for Board No. 2, at the City Hall in Spring Valley.

On June 27, 1917, the members of Board No. 2 met at Dr. Franklin's office at Spring Valley

and organized, electing David C. Wray, Chairman; C. N. Hollerich, Secretary. At the same time Dr. Franklin wrote a communication to Governor Lowden informing him that he already belonged to the Medical Reserve Corps and suggested that this might make him ineligible for service. Governor Lowden later appointed Dr. F. B. Schurtz as third member of the board and this personnel continued throughout the period of war without further change, rendering their services gratuitously.

On July 2, 1917, the members of Local Board No. 1 met at the Court House in Princeton and organized by electing Cairo A. Trimble, Chairman; Jay L. Spaulding, Secretary, and Dr. O. J. Flint Examining Physician. Dr. Flint was succeeded on November 6, 1917, by Dr. C. C. Scott, Dr. Flint resigning to accept a commission in the regular army. However, he was not called until May, 1918, and assisted on the Board after his resignation until called to service.

Following their organization, the two Exemption Boards proceeded to obtain all registration cards, papers and files in the possession of the Registration Board and examined, serially numbered and verified all registration cards in their

respective districts. Much time was devoted to checking over and arranging the numerous lists and reports which they were required to make up for State and Government War Departments.

The latter part of July, the boards were furnished with the list of master numbers drawn at Washington, D. C., to be used in the lottery deciding the order in which the registrants of the United States were to be called for military service. The Local Exemption Boards were obliged to verify their own order lists and compile same from these master numbers which involved great detail and labor.

The first 500 men under the jurisdiction of Local Board No. 1 reported at the Court House in Princeton for physical examination on Aug. 6, 7, and 8, 1917. On numerous other dates up until the armistice, the registrants in this district were ordered to report at the Court House for physical examination and induction into military service.

Physicians and surgeons from Princeton and surrounding towns assisted Dr. Scott and Dr. Flint with the examinations. Dr. T. P. Gunning, Dr. R. H. Henry, Dr. O. R. Wakefield, Dr. H. D. Steele, Dr. G. R. Richardson and Dr. H. B. Kitterman of Princeton, Dr. O'Malley of

The HONOR ROLL

Ohio, Dr. Hess of Tiskilwa, and Dr. Herrick and Dr. Christenson of Wyandot rendered valuable assistance. Dr. A. E. Owens of Princeton was appointed by the local board as re-examining physician and Dr. M. A. Nix, Dr. C. C. Barrett, Dr. A. H. Malm, Dr. M. H. Blackburn, Dr. F. B. Schroeder were appointed assistants to the re-examining physician on August 1, 1917.

Dr. F. B. Shurts was aided in all medical examinations for Board No. 2 by Dr. A. S. Runnell, Dr. M. J. Coveny, Dr. J. H. Franklin, Dr. R. E. Miltenburger and Dr. W. J. Ream of Spring Valley, and Dr. J. F. Lewis, Dr. J. J. McDonald and Dr. C. W. Blanchard of Depue, who gave their time and labor freely and willingly.

A great deal of the large amount of clerical work both boards found it necessary to have done was performed gratuitously by fellow workers. The clerical work of the Princeton Board was personally supervised by Jay L. Spaulding, Secretary, and Cairo A. Trimble, Chairman of the Board, assistance being given by Court House employees and various stenographers in the offices and business houses in Princeton.

The office force of the Mineral Point Zinc Company at Depue, the Spring Valley Coal Company, the Spring Valley City Bank, the school teachers of Spring Valley and numerous others performed a great deal of the clerical work for the Spring Valley Board.

The latter part of September, 1917, Clifford R. Trimble was appointed chief clerk of Local Board No. 1 and served until the middle of April, 1918, when he resigned. Howard J. Bailey succeeded Mr. Trimble as chief clerk and Mrs. Oren Spaulding was appointed assistant clerk. Mr. Bailey served as chief clerk until the exemption board was abolished in April of 1919. Mrs. Spaulding was forced to resign her position as assistant clerk the latter part of September, 1918, on account of ill health, and was succeeded by Mrs. H. J. Bailey.

Mr. W. L. Dormand was first chief clerk and Mr. Francis Coveny was assistant clerk the first month for Local Board No. 2. W. J. Smith of Depue, succeeded Mr. Dormand and was chief clerk for one month and was then succeeded by J. W. Pachankis of Spring Valley, who was chief clerk for four months. Miss Catherine McCullum was assistant clerk, and when Mr. Pachankis entered service, Miss McCullum was made chief clerk with Miss Leonore Dyer as assistant clerk. Both held their respective positions as long as the board continued to act.

Too much credit cannot be given the members of the Bureau County Exemption Boards for the work they performed, as day after day and month after month they worked almost incessantly at the war work, ignoring their own personal interests and devoting most of their time to their country.

LEGAL ADVISORY BOARDS

At the close of the year 1917, the war department issued an order requiring all registrants to fill out and file questionnaires with the local Exemption Boards. What was known as a Legal Advisory Board, consisting of three members, was appointed by the Exemption Board for each Exemption Board District. The Legal Advisory Board for District No. 1 was composed of Joe A. Davis, Chairman; Claude Brown and G. C. Wilson, members. The Legal Advisory Board for Exemption District No. 2 consisted of W. J. Hawthorne, Chairman; J. L. Murphy and W. J. Wimbiscus, members. The duties of these boards were to assist all registrants in the

proper filling out and answering of questionnaires.

In District No. 1 a score of men and women were appointed as associate members of the Legal Advisory Board and a certain number of registrants were ordered to report at the Court House in Princeton on certain days to fill out and file their questionnaires. The Legal Advisory Board and Associate Members were on hand and helped them from early morning until late in the evening. The Associate members were as follows:

such registrants were called for examination by the Local Exemption Board.

In addition to this, the different members of the Board, particularly the lawyers, made out questionnaires in their offices for upwards of 500 registrants from other jurisdictions who were uncertain just how the many questions to answer should be interpreted.

The Legal Advisory Board also rendered service in prosecution of appeals from rulings of the Local Board and in general performed all of the duties expected from a lawyer by his client on behalf of those who requested such service, all without reward of any kind.

The Legal Advisory Board for District No. 2 also appointed associate members in the immediate vicinity who were of great assistance to registrants in filling out their questionnaires. The Associate members who rendered valuable service for District No. 2 were:

Kendall, L. J., La Moille.
Norris, Clark, La Moille.
Sutton, C., Malden.
Connolly, C. L., Cherry.
Cassidy, P. J., Jr., Arlington
Zearing, M., Ladd.
Hurley, Jas. J., Ladd.
Campeggio, Joe, Ladd.

Perona, Paul, Ladd.
Duncan, L. G., Depue.
Rhoades, M. J., Spring Valley.
Cassidy, Harry, Spring Valley.
Frank, M., Spring Valley.
Mahoney, P. M., Spring Valley.

Local bankers, notary publics, post masters and private individuals also helped with a large volume of this work.

In Spring Valley a Board of Instruction was organized with Mr. C. F. Sherrard of Ladd, L. G. Duncan of Depue, and P. M. Mahoney of Spring Valley. This Board of Instruction held several patriotic meetings in Spring Valley, Depue and Ladd where all "Class A-1 Men" heard patriotic and instructive talks from capable speakers and held weekly practice drills. At the time the Armistice was signed about 100 "Class A-1" men had a thorough course of preliminary training in military tactics. Mr. L. G. Duncan, who had received a course of training in an officers' training school and Dr. Horace Dunn of Ladd, who had received training in English army, gave military instruction.

The Spring Valley and Depue Chapters of the Red Cross outfitted all men inducted with Comfort Kits, Sweaters, Socks, etc.

The HONOR ROLL

NEEDLEWORK GUILD

The Needlework Guild of America, founded in 1885, is a National organization of about 800,000 members, representing more than 500 branches throughout the United States. With home charity as its object, it has worked quietly nearly 35 years.

Then came the ruthless invasion of Belgium. Thousands of refugees, pouring into France, reached Lyons, and from that city a branch of the Needlework Guild, doing its utmost to meet the appalling need, cabled to America for help. From the National office in Philadelphia, messages were sent to all branches of the Guild to use their organizations for the purpose of making and sending garments and hospital supplies, as quickly as possible, to the stricken Belgians.

Princeton at that time had no war relief organization for this specific work, but when they heard this call, they responded in a way that their children, and their children's children may be proud of.

On March 15, 1917, an informal meeting was called, which resulted in the organizing of the Princeton Illinois Branch of the Needlework Guild, under the following officers:

Mrs. H. M. McKee, President.
Mrs. C. A. Palmer, 1st Vice President.
Mrs. C. C. Barrett, 2nd Vice President.
Mrs. Alfred Norris, 3rd Vice President.
Mrs. O. J. Flint, 4th Vice President.
Mrs. H. U. Bailey, Secretary.
Mrs. Harry McManis, Cor. Secretary.
Miss Mable Greenwood, Treasurer.
A special War Relief Department was formed.
Mrs. A. F. Seelig, Chairman.
Mrs. A. C. Best, Sewing.
Mrs. C. C. Barrett, Knitting.
Mrs. C. W. Hodgeman, Ways and Means.
Miss Ruth Waddell, Treasurer.

Executive Board—Mrs. Elmer Sapp, Mrs. A. H. Ferris, Mrs. H. A. Clark, Mrs. H. A. Gibbs, Mrs. A. F. Seelig.

Realizing that every moment lost meant additional delay and suffering, work was commenced the moment the organization was completed. This could not have been done but for

the splendid backing afforded by the merchants of Princeton.

On the day of the first meeting, two newly elected officers went into one of the stores to interview a traveling salesman in regard to special prices. After explaining the object of the Guild, one of the women, opening her hand, showed 75c and said, "This is the extent of our bank account. Will you trust us?" Without hesitating a moment the salesman answered, "We will," and those two silver coins, donated by Mrs. R. M. Skinner and Mr. S. G. Paddock, started the fund which later mounted to thousands and made the work of the Guild possible.

Miss Ella Thompson donated the use of rooms in the Masonic Block, where the work of the Guild began. The city furnished light and water. The Telephone Company installed a free telephone. The papers furnished free advertising, and individuals gave fuel and maintenance. Thus the running expenses of the Guild were provided for.

The question was often asked, "Where do you get money to buy your materials?" The answer was, "We got it through the generosity of our people." Individuals gave, unsolicited. Church Guilds and Societies, English and Swedish, Lodges, Sewing Circles, Social, Literary and Musical Clubs, all sent contributions. School children gave nickels and dimes which soon amounted to dollars.

Workers gathered willingly at the shop, and on the 11th of May, 1917, the first cases, lined with oilcloth and banded with iron, started on their journey to France.

When America entered the war, to the cases constantly going to France through the medium of the American Fund for French wounded, and the National Surgical Dressings Committee, were added cases sent to the Central Division of the American Red Cross.

The Guild record shows a shipment of about 40,000 articles, exclusive of the Christmas bags and kits. By actual count this would fall far short of the number, owing to the fact that in order to simplify bookkeeping and save time,

small surgical dressings such as tampons and wipes, were listed by the dozen, a package containing 12 wipes being entered as one article.

It was now that the work of the Guild became the heaviest. Every day the shop was full of workers, and many evenings groups of young people, who were busy during the day, gathered to do what they could for the men at the front.

To meet the heavy bills for materials, all sorts of means were resorted to.

A Colonial Tea, given by the Daughters of the Revolution, brought the first large contribution, \$35.00.

Mr. W. E. Trimble proposed a Rose Tag Day, and offered to furnish all the roses the women of the Guild could sell. All day the work went on, and after selling the last armful of buds to passengers on the evening train, the committee turned in \$301.61.

Next a Rummage Sale, under the direction of Mrs. C. W. Hodgman, netted \$177.00.

In response to a letter written just before Christmas, Santa Claus sent the Guild, thru his emissaries in Princeton, \$325.00.

A "Continuation Party" resulted in \$235.00.

Mrs. C. H. Ward made and sold \$52.00 worth of aprons.

Mrs. Howard Bailey's "Carry All Bags" brought \$76.00.

The Katinonkwat Camp Fire Girls collected and sold old papers, and from their profits contributed \$100.00.

The Farmers Club, East Rural and "Carry On" Units turned in money raised by the sale of chickens, box socials, paper rosebuds, and rugs.

On its first birthday the Guild had a party to which its friends carried gifts. These were

sold at auction by E. J. Best and brought the sum of \$130.00.

In the Spring of 1918 some of the members set hens for the Guild, and in the Fall turned in \$91.00.

There were lectures and entertainments.

Different groups sold flowers, vegetables, berries and Christmas wreaths.

Every honest method of collecting money was resorted to, but the largest amount came from "The Whirlwind Drive and Street Sale" which was planned and carried out by the business men under the direction of Mr. Chas. L. Trimble. This sale, including cash donations, amounted to \$6,517.12 and it is largely because those busy men were willing to give two or three whole days, and several evenings, to the furtherance of the scheme, that the Guild is still able to carry on its work.

800 Kits were given to Bureau County boys.

559 Christmas Bags were sent to the Tuberculosis Hospital at Fort Bayard, N. M., and 335 Christmas Bags were sent to both American and French Hospitals in France.

The membership of the Needlework Guild totaled 462.

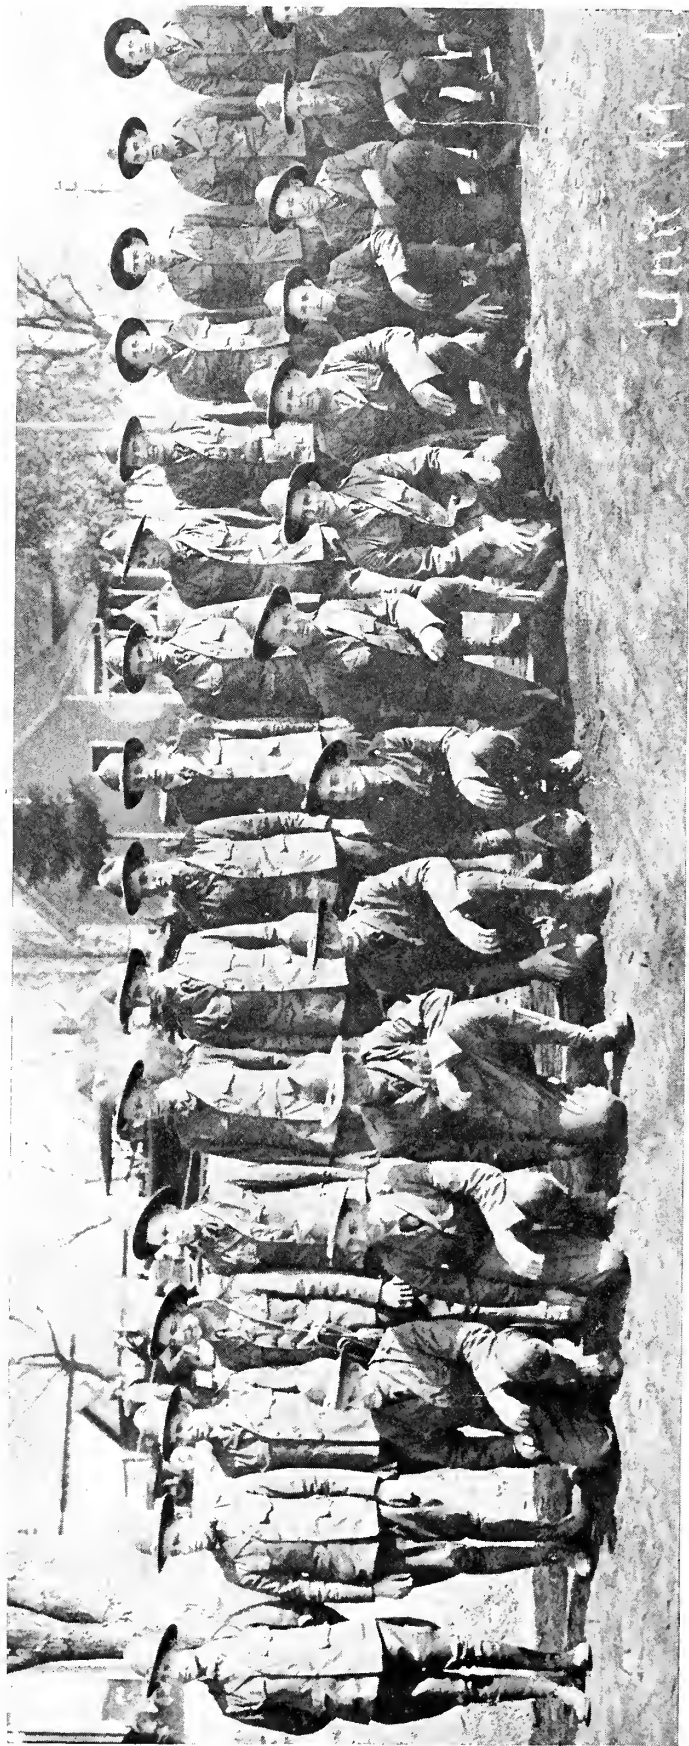

This then has been the war work of the Needlework Guild. Its story is told in no spirit of boastfulness, but as a plain statement of facts, that those who have given their time and their money may know to what ends both have been used. It is told, too, that soldiers all over the world—those who so steadfastly held the line, and those who so gloriously turned the tide—may know how gladly and how gratefully the women of the Princeton Illinois Branch of the Needlework Guild of America have worked, to send a ray of comfort and cheer into their lives, and into the lives of their families.

THE NEW BEDFORD HOME GUARDS

Early in the month of October, 1917, the men of New Bedford and vicinity held a meeting which resulted in several conferences looking toward the organization of a Unit of the Illinois Volunteer Training Corps which were then organizing throughout the State and being commissioned by the State Council of Defense.

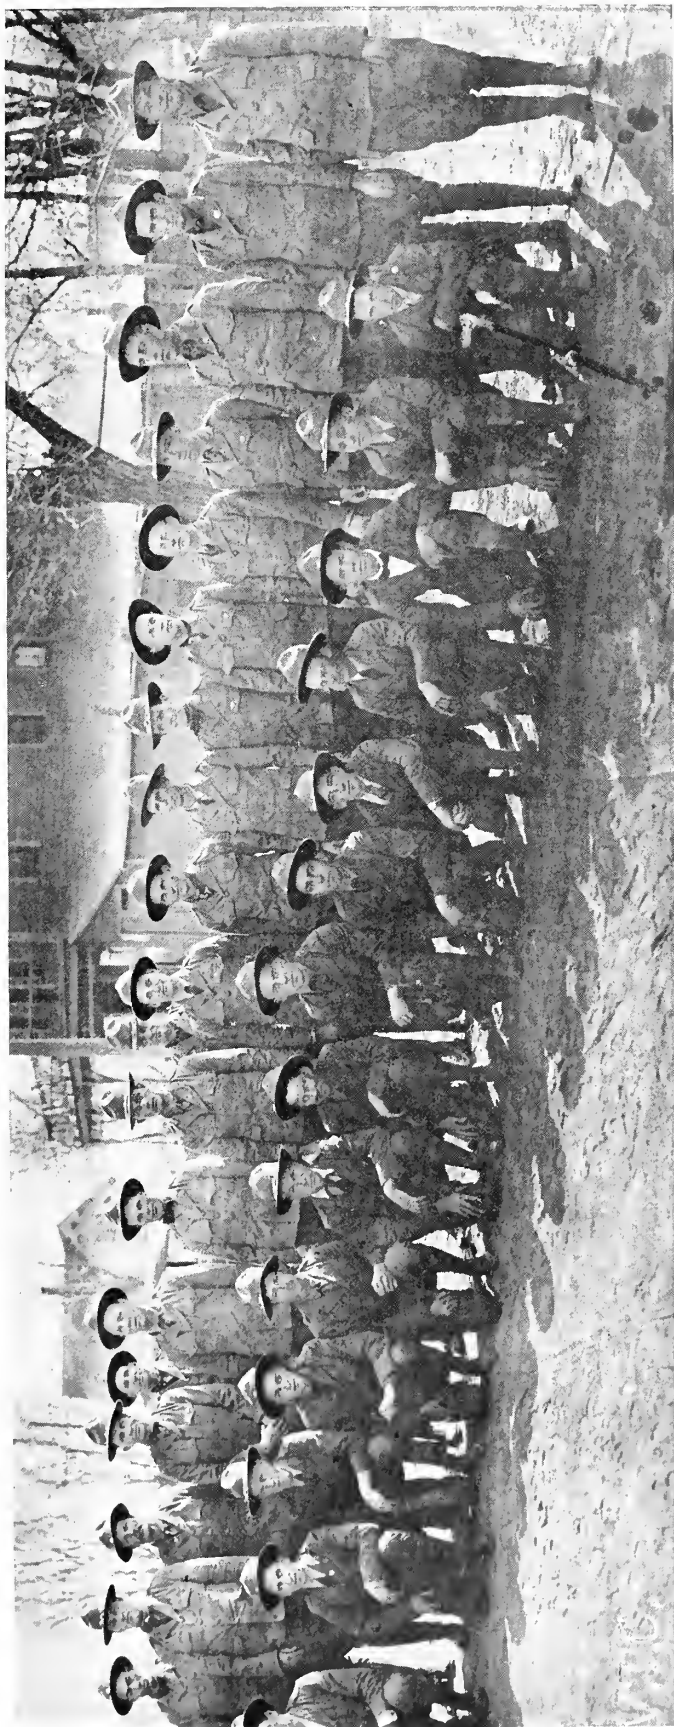

On December 26, 1917, the company received its Certificate of Recognition and the officers, L. C. Brink, Captain; W. L. Bailey, First Lieutenant; H. E. Olson, Second Lieutenant, received their commissions. The Company was known as Unit No. 44, I. V. T. C., until September 18, 1918, when in response to a tender to

the Adjutant General, by Lieutenant Governor Oglesby of service of Unit 44 in the Reserve Militia the company was officially mustered in the Reserve Militia September 18, 1918, by Col. Abbott of Adjutant General F. S. Dickson's Staff.

In March, 1918, Lieutenants Bailey and Olson, because of business demands, were compelled to resign. First Sergeant Harold Deitz was elected First Lieutenant, and Sergeant George Deitz was elected Second Lieutenant to fill vacancies.

The Company maintained a full quota of officers and enlisted men until they were ordered mustered out June, 1919, at which time L. C. Brink, Captain; H. C. Deitz, First Lieutenant; G. E. Deitz, Second Lieutenant, and L. W. Anderson, First Sergeant, had one of the best

drilled and uniformed companies in the State. The cost of the company uniforms approximated \$800.00 and was contributed by the people of the vicinity in which the company was located.

Numerous exhibition drills were put on to "pep up" the county during various celebrations and war work organizations drives of one kind and another. The patriotic enthusiasm aroused where this organization assembled for drill quickly developed them into being in great demand for patriotic meetings and rallies up until the time the armistice was signed. To them, in no small measure, must be given credit for valuable results accomplished in encouragement of drafted men, assistance in various Liberty Loan and other war measure drives, and in the spread of propaganda for the support of the Government and of the State and in all endeavors throughout the war.

PRINCETON'S CANNON AND THE WAR

A brief history of Princeton's cannon which has acquired the right to become a part of the local history of the city because of its long participation, not only in the peaceful expression of pleasure and merry-making of local societies, but also in the popular approval of traditional events in the nation's history as well as in those enthusiastic election celebrations, seems not inappropriate at this time.

History, however brief, of this "speaking" partner of Princeton's celebrations and jubiliations, would not be complete without a short reference to the mysterious disappearance of its predecessor, for it had a predecessor, whose origin and history is now lost in the inscrutable silence of the past.

Citizens of to-day know well the former location of Wagner's brick yard, west of the Fair Grounds. On the east side of the highway stood John Wagner's brick residence, and west of the road at a distance of seventy-five or a hundred yards was a row of brick kilns.

It was on the Fourth of July, 1859, as nearly as can be ascertained, that a group of patriotic citizens intent on waking up the countryside early in the day, had with infinite labor and by some means now unknown, hoisted the cannon

to the top of one of the brick kilns and then proceeded to load it to the limit that it might make a great noise.

When the gun was ready for discharge, Henry Rudiger, John Niedergang, John Wagner and Andrew Gosse, which included the celebrants, with the exception of Michael Rhine, the gunner, retired to the outer limits of their elevated platform and the piece was touched off.

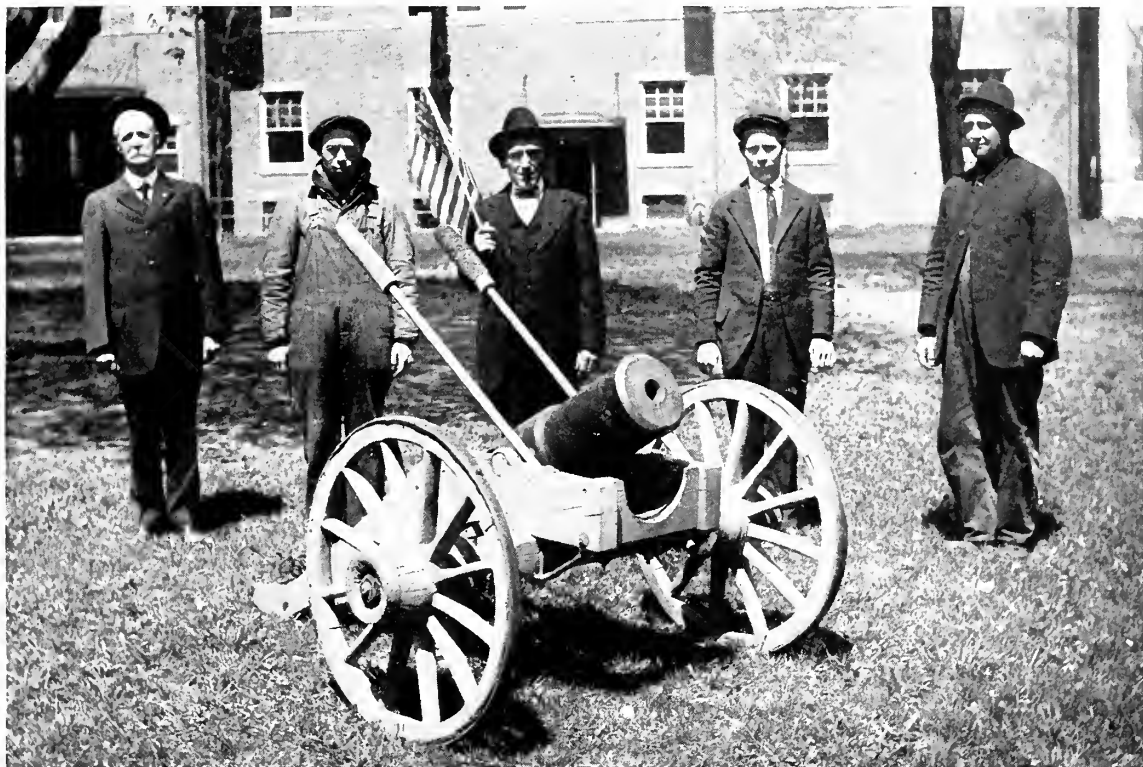

When the smoke had cleared away the men looked at one another in blank amazement,—where the cannon had been, there was no cannon nor was it visible anywhere around. Every vestige of it had disappeared completely and instantaneously. But their attention was soon directed to the residence of Mr. Wagner. A piece of the gun, weighing fifty pounds, had passed through the kitchen wall directly over the head of Mrs. Wagner, badly frightening her.

The town was now without a gun to join in its expressions of joy or of patriotism, and those whose emotions were of an explosive nature, which included the original group of the brick kiln, bargained with Miller and Chritzman, then of the Princeton Mfg. Company, to cast them a cannon which would not burst.

It was sometime between the disaster of the

brick kiln and the years of 1860-61 that the present cannon, which so faithfully served the town in its manifestations of mild and peaceful pleasure, or in its capers of delirious joy, was born, and it has lived up to the warranty of its makers not to burst, although it has often been severely tried.

The only near catastrophe attending its nearly sixty years of service occurred soon after it had been made and mounted, and was being tried out by its gunner, Michael Rhine. He was giving it a trial load when at the discharge, a nut on the strap across one of its trunnions, fastening it to its carriage, flew off and struck him in the forehead, laying him out full length on the sod and putting him to sleep for the count. However, on regaining consciousness he jumped to his feet and seemed none the worse for the mishap.

The gun has been used on innumerable occasions, lending its voice to the use of the German

Schuetzenfest, and the German Singing Society of those days, on the recurring 4th of July celebrations and during the Civil War, to those occasions when the God of battles favored the cause of the Union.

One occasion of this kind which a few of the living gray heads recall was at the fall of Richmond. Wagner's cannon, the name by which the gun had become known, was placed on Main Street, between the American House and Converse Hall (now Masonic Hall) where it proceeded to make all the noise of which it was capable. At each successive discharge of the gun, some window rattled to the pavement; but none took note or cared. The street was full of a cheering, shouting, howling throng, delightfully and deliriously drunk with joy, and the cannon continued to boom and the windows to rattle down until the street was lined with broken glass the entire length of the block.

THE HONOR ROLL

During the years the gun has undergone many vicissitudes of time, exposure and decay, always, however, maintaining its own pristine strength of fiber. It has been remounted several times, has been quite forgotten at times, and then rescued from oblivion and dragged out from cover.

On every occasion since 1917, when the United

States entered the world war, Mr. Chas. H. Kelley has made the cannon speak for loyalty and patriotism, and it has played a very important part in all the local celebrations incident to the war, and on every occasion that the cannon could be used Mr. Kelley was on hand to load and make it talk.

CROP PRODUCTION COMMITTEE OF THE STATE COUNCIL OF DEFENSE

CHAS. J. MANN

County Chairman of Crop Production Committee, State Council of Defense; Chairman Farm Labor Administration and Bureau County Administrator of the United States Food Administration

Charles J. Mann, County Farm Adviser, was appointed as County Chairman of the Crop Production Committee of the State Council of Defense, in February, 1918. For effective work it was evident that a detailed organization in the County was necessary. In coöperation with Geo. O. Smith, County Superintendent of Schools, a questionnaire was sent to all school teachers upon which the names of all farmer residents of the district were given together with information relative to their community centers whether owners or renters, the number of children in the family, etc.

From the information thus received the County was divided into 32 community centers, ig-

noring Township lines entirely. For each community center a Farm Bureau member was appointed as community director. For each School District and each center a District leader was appointed. In every case a Farm Bureau member was appointed when one lived in the School District.

The particular work to be done in the way of crop production was an increased acreage of wheat and barley, and brood sows.

Through this school district organization there was concluded the most complete and searching canvass ever carried out in the County. Data was secured from practically every farm as to the number of brood sows in 1917, the number in 1918 and the number for sale; the acres of winter wheat and rye sown; the amount of labor that was wanted for 1918; the amount of seed wanted or for sale of corn, spring wheat, red clover, barley, early oats, timothy, alfalfa and other seeds. The mass of data secured by this canvass from the 192 school districts was all gone over carefully and every man who had anything for sale, or wanted to buy, was listed. This required six long mimeograph sheets filled on both sides. Over 2,200 letters were sent to farmers of the County carrying this vital information and hundreds of Bureau County farmers were assisted in securing seed or brood sows as a result. The figures showed an increase of nearly 20 per cent over 1917 and showed an average of 10 brood sows per farmer.

In addition to this work the School District organization was used in aiding the Government in locating walnut timber, placing labor and other features.

SEED CORN ADMINISTRATION

Charles J. Mann being appointed, also as Seed Corn Administrator of the State Council of Defense, at once made effective plans to supply farmers of the County with seed corn for the 1918 crops. Because of an early frost in the fall of 1917 the supply of seed corn was very short and a large supply must be made available, quickly. To meet the emergency 500 bushels of seed were purchased from a seed house at Geneseo and this was the total available supply. There were several cribs in the County of 1916 corn and a seed testing station was opened up in the old Wingert building at the north end in Princeton, and farmers urged to bring their corn in to be ear tested. The rag doll method was used, simple racks holding 25 ears were made, and incubator constructed and testing under way during March and April. A force of ten or twelve men and women were employed. A

charge of 1c an ear was made to cover expenses and over 250,000 ears were run through this testing station and these were about equally divided between the 175 farmers for whom the custom work was done and the crib corn from which seed was sold. This Company operated under the name of C. J. Mann Seed Company and was made possible by financial support given by L. R. Davis, John Ellis and Joe Brigham, all of Princeton. This company made available 241 bushels of 90 per cent seed corn; 76 bushels of 80 per cent, and 53 bushels of 70 per cent, making a total of 375 bushels of the best corn that was used in the County for seed, that year. The 90 per cent corn sold for \$10.00 a bushel; the 80 per cent for \$8.00, and the 70 per cent for \$6.00, and which netted the owners of the crib corn better than \$6.00 per bushel after all expenses were paid.

The HONOR ROLL

Making this amount of seed available was not the only value of the testing station for literally hundreds of farmers visited the station, saw how the testing was done, and proceeded to test their own corn.

In addition to this, one ear of good seed was shipped from Southern Illinois which had been raised from seed sent there from the north the year before. This was made available in addition to other small supplies in elevators and pri-

vate holdings over the County. Furthermore, two car loads of seed obtained of the State Seed Corn Administrator were stored in the Wingert building for emergency uses in re-plantings and for shipment to other localities. It was necessary to use but little of this corn, however.

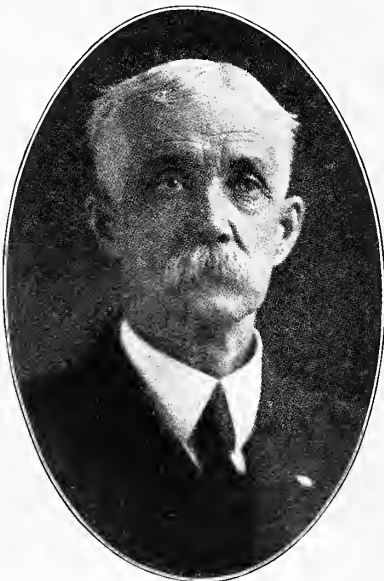

The result of all this work was that farmers had a sufficient supply of good seed corn and the best stand in years which developed into one of the largest crops on record.

THE FARM LABOR ADMINISTRATION

The School District organization supplied a list of those desiring labor so that applicants could be cited to farmers who wanted help, but no record of the number of those placed was kept. Several local administrators were appointed in the County to take care, especially of the emergency harvest labor problem, and in this their efforts were successful. A card index was made of all citizens in town who would be

available for emergency harvest labor and farmers making application were at once supplied with sufficient help to care for all crops. No record, however, was kept on this activity. In this capacity Mr. Mann was called upon to select a County Director of the U. S. Boys' Working Reserve and Mr. Chas. H. Kelly, of Princeton, was appointed.

UNITED STATES BOYS' WORKING RESERVE

CHARLES KELLY
County Director of United States Boys'
Working Reserve

With their older brothers and other relatives having entered the service, boys of the town and cities were anxious to get into the game in some capacity and with the increased demand for

greater food production, while at the same time such a large number of farm laborers had entered the service, it seemed advisable that the boys could best be utilized on the farms.

Accordingly the U. S. Boys' Working Reserve was organized by authorities of the Federal Government and the State Council of Defense. Considerable doubt existed in the minds of the farmers as to whether green city boys could make good on the farm, but through assistance rendered by the University of Illinois in preparing appropriate pamphlets of instruction and also by special instruction through the High School, it was felt by those in authority that boys who really wanted to be of service would make good.

Being appointed County Director in March, 1918, Mr. Kelly, of Princeton, appealed through the High School to the boys of the County to enlist, purely from patriotic motives, in the Boys' Working Reserve, for work on our farms. About 250 Bureau County boys responded—100 from Princeton Township High School and 150 from other High Schools of the County. Through

The HONOR ROLL

the Farm Bureau and newspaper publicity the proposition was explained to the farmers and a card index made of farmers who would be willing to use this assistance. The demand for these boys could not be met from the local supply and upon request, permission was granted the Chicago University High School to locate twenty-five of their boys in the County. They arrived in May in charge of one of their instructors, Mr. G. W. Friedrich, who remained in the County to look after the comforts of the boys and to insure the farmers good service. Mr. Friedrich was finally placed in charge of the 200 boys from all Cook County High Schools, who finally offered their services and were placed in the County. It was the duty of the local organization to see that these boys were placed in

proper homes where they would receive proper preliminary instruction, care and comforts and also to insist that the boys render good service and did not shirk their duties. The way these boys made good surprised the farmers no more than themselves.

Wages ranged from \$25.00 to \$40.00 per month, depending upon the boy's willingness and experience and every one conceded that they earned all they got and if ever such an occasion should again arise, let this experience be sufficient for farmers to use green city boys who are willing to work and learn, a chance on the farm.

The boys did their work well and deserved some recognition and accordingly our Government presented each boy with a bronze pin appropriately worded in recognition of his service.

BUREAU COUNTY WAR SAVINGS STAMPS ORGANIZATION

HUBERT A. CLARK
County Chairman of War Savings Stamps
Organization

The first chairman of the Bureau County War Savings organization was Charles W. Boyden of Sheffield. Much work was done throughout the county by Mr. Boyden and his assistant, H. A. Clark, and a special drive was made during "War Savings Stamp Week." The drive was conducted by school districts. Quotas were apportioned and many of the districts not only

subscribed for the total amount of their quotas but went "over the top" by a large margin. Special mention should be made of the large sale of War Savings Stamps by Jos. V. Campeggio, postmaster at Ladd. Mr. Campeggio made more sales of war stamps than any other postmaster in the county.

A reorganization of the committee for 1918 was effected by the state organization and H. A. Clark was appointed County Chairman. Chairmen of the various organizations throughout the county were appointed, the full committee being as follows:

Hubert A. Clark, County Chairman.

Palmer E. Anderson, County Vice Chairman.

Rollo L. Russell, Chairman Postmaster Organization.

George O. Smith, Chairman Teachers' Organization.

Mrs. Elmer Sapp, Chairman Women's Organization.

Chas. L. Trimble, Chairman Publicity Bureau.

Perry D. Trimble, Chairman Speakers' Bureau.

Harlow B. Brown, Chairman Newspapers' Organization.

Rev. T. B. Uber, Chairman Ministers' Organization.

The HONOR ROLL

A. H. Ferris, Chairman Bankers' Organization.

E. F. Norton, Chairman Supervisors' Organization.

A conference and luncheon was held at the Apollo Hall at Princeton, Illinois, on Saturday, March 22, 1918. The luncheon was served by the ladies of the Needlework Guild free of charge. There was a large attendance and the

program consisting of community singing and speeches by the State and Government representatives was enthusiastically received. Most of the banks throughout the county purchased the maximum amount of War Savings Stamps or the maximum War Savings \$1000 Certificate. The Women's Club also did excellent work in the sale of stamps to its members.

UNITED STATES FOOD ADMINISTRATION

The exceedingly important role that food would play in maintaining a proper morale among both civilians and soldiers of all the Allies was early appreciated. Accordingly the United States Food Administration was at once organized with Federal, State, County, Township and City Food Administrators.

The personnel of the Bureau County Organization was as follows:

C. J. Mann, County Administrator.
W. H. Jackson, Assistant, Princeton.
W. F. Stratton, Assistant, Buda.
Cliff Sitterly, Hall.
John O'Donnell, Princeton.
Constant Brown, Wyandot.
G. C. Kellogg, Arispie and Indiantown.
Foster Black, Walnut and Greenville.
C. W. Boyden, Concord.
H. J. Sutton, Berlin.
Max Seibel, Manlius.
I. C. Norris, La Moille.
George W. Whaples, Neponset.
C. M. Ely, Mineral and Gold.
Alba Miller, Leepertown.
Mr. Hey, Ohio.
John Becker, Bureau.
J. E. Monier, Milo and Wheatland.
P. D. Gillham, Dover.
Hy Hoppeler, Selby.

The objects and purposes of these organizations were as follows:

1. To eliminate speculation, extortion and waste, to stabilize prices and equalize distribution.

2. To guard exports so as to insure a fair division for ourselves and our allies.

3. To increase available food supplies by saving and substitution and by stimulating production, especially wheat and meat.

The particular duties of the local administrator were to carry out the orders of the Federal Administrator. These applied principally to the elimination of waste, the prevention of hoarding, and the increased use of substitutes, especially for sugar, wheat and meat. As applied to these the regulations were very strict.

Based upon their previous annual consumption the sugar was allotted to the retailers upon a certificate system and customers were limited to two-pound purchases and the consumption for each person was limited to two pounds per month. Sugar bowls were removed from hotels and restaurants. During the canning season supplies of 10 to 25 pound lots were granted by certificates where actually necessary to prevent the loss of other food products. People were urged to use corn syrup as substitute and can without sugar whenever possible.

Retailers were allotted flour on the same basis as sugar and with each sale of flour were required to sell an equal quantity of one or more of the following substitutes: Corn flour, rice flour, bean flour, corn meal, oat flour, potato flour, buckwheat flour, barley flour, peanut flour, sweet potato flour. Some other substitutes were permissible for bakers, however.

Flour purchases were limited to one-fourth barrel lots and each person limited to six pounds per month. Persons who had a large supply of flour on hand were asked to return their supplies to the retailers who paid them \$12.00 per barrel.

The consumption of meat was also limited and

The HONOR ROLL

meatless days and meals were observed. The regulations imposed relative to the consumption of these food products were frequently changed and the local administrators were kept busy disseminating information regarding them.

Throughout the operation of the Food Administration results in Bureau County were obtained by a concentrated call for coöperation of every one concerned and while there were violations of all orders there was no case where the violation required the imposition of a fine. As a rule people arose to every occasion imposed and gladly complied with all requests.

Other activities of the Administration were

the taking of a hog and cattle census in coöperation with the schools and the securing of a report from all threshing done in 1918. For this work a threshing committee consisting of W. C. Riley of Kasbeer, Chairman; C. J. Mann, Secretary; and Warren Nelson, Princeton, was utilized and the coöperation of the threshermen secured at a meeting in the court house, attended by over 400 threshermen. The complete report is on file at the Farm Bureau office.

A complete file of all Food Administration orders, posters, receipts, etc., was also given the Matson Public Library of Princeton for public reference.

FOUR-MINUTE MEN

An organization which rendered very great service "in waking up Illinois" (and the whole nation) and in arousing people everywhere to the duties and obligations of war time, was the Four-Minute Men.

The idea of the Four-Minute Men organization was an Illinois idea. Donald M. Ryerson, of Chicago, conceived it and just before America got into war, brought it to the attention of several prominent persons. With their encouragement the idea was tried out in Chicago. The idea was for a skilled organization of speakers all doing team work by speaking on the same subject at the same time, who would address ready-made audiences at the motion picture theatres, also at regular theatres and elsewhere, upon the immediate need of the hour.

Following is a list of the personnel of the Four-Minute Men in Bureau County:

J. R. Prichard, Chairman.
Claude Brown.
Carey R. Johnson.
Watts A. Johnson.
R. L. Russell.
Josef T. Skinner.
Richard M. Skinner.

Cairo A. Trimble.
Rev. C. C. Carpenter.
Rev. J. Henry Pierce.
Rev. Geo. B. Pence.
Rev. Henry J. Lee.
Rev. T. B. Uber.
Rev. J. E. Fluck.
H. A. Clark.
Howard Priestley.
Geo. O. Smith.
John O'Donnell.
W. R. Spurrier.
H. E. Waits.
Horace Brown.
Rev. J. H. DeVol, Walnut.
Dr. Robinson, Walnut.
N. A. Hillier, Sheffield.
Geo. B. Prindle.

From the very first, official recognition was given to the Four-Minute Men and it soon became a national institution with divisions in each state. In every campaign in behalf of the Government the work of the organization was most effective, whether that campaign was selling bonds, collecting funds for the Red Cross, arousing interest in special drives, or combating German propaganda.

LIBERTY LOAN DRIVES

The first call sounded by the Government after the United States entered the World War was for men for the Army and Navy. The

second appeal—and it came quickly—was for money.

Men—millions of them—were needed if the

The HONOR ROLL

United States was to win the war, but it was necessary that vast sums of money be provided before the men could be trained, equipped and transported to France. It was realized, also, that other huge sums would be needed to provide the guns, shells, air planes, tanks and other implements of death, with which a modern army must be supplied.

Between the time the United States entered the war and May 10, 1919, there were five Liberty Loan Drives in the country. Bureau County has a general average of 109 3-5 per cent subscription of the total quota assigned for all five drives. The Second was the first campaign where an official quota was given to each county. For this reason a fictitious quota was used to find the quota assignment for the first loan.

The percentage of the quota subscribed by Bureau County in each loan were as follows:

First Loan, 45 per cent.

Second Loan, 76 per cent.

Third Loan, 169 per cent.

Fourth Loan, 133 per cent.

Victory Loan, 125 per cent.

For the splendid response that the county made to all the calls for money, credit must be given alike to the thousands of persons who subscribed for Liberty Bonds—many to the full limit of their resources—and to the hundreds of patriotic men, women and children, who served as volunteer workers in the several loan campaigns. Without the aid of this great army of Liberty Loan workers, Bureau County, with all its patriotism and its desire to aid in the winning of the war, could not have made the record which she did make, largely oversubscribing her quota in three of the five Victory Loans.

A. H. Norris, of Princeton, was County Chairman of the First, Second and Third Loans. In the Second Loan, Perry D. Trimble was Vice Chairman and O. B. Harrauff, Publicity Chairman.

Richard Skinner was appointed Vice Chairman of the Third Loan which was in April, 1918, following the resignation of Mr. Perry D. Trimble, who secured an officers' commission and entered the military service. Mr. Harrauff re-

mained as Publicity Chairman and the County headquarters were located at his office in Princeton. A card index system was inaugurated, under which individuals in the county were carded. Miss Florence Beyers acted as clerk and the work of compiling the card index was under her supervision.

OSCAR B. HARRAUFF

Publicity Chairman for Second and Third Liberty Loans. Inaugurated Card Index system of handling the loan for Bureau County, same being highly commended and adopted by the United States treasury department in subsequent loans

For the Third Loan the County was divided into five districts with the following personnel of officers:

Concord District, Chas. W. Boyden, Chairman.

Concord Twp., Chas. W. Boyden, E. E. Geese-
man.

Manlius Twp., Geo. C. Schuneman.

Mineral Twp., C. M. Ely.

Macon Twp., A. W. Dix.

Neponset Twp., Charles Norton.

Gold Twp., Chas. W. Boyden.

Walnut District, Chas. E. Keelan, Chairman.

Walnut Twp., Chas. E. Keelan.

Ohio Twp., V. R. Pomeroy.

Greenville Twp., Elmer Olson.

Fairfield Twp., Thomas Drayton.

The HONOR ROLL

Princeton District, R. M. Skinner, Chairman.

Princeton Twp., W. R. Spurrier.
Bureau Twp., John Becker.
Dover Twp., George Steele.
Wyanet Twp., W. E. Sapp.
Indiantown Twp., B. N. Stevens.
Arispie Twp., W. T. Stauffer.
Milo Twp., J. E. Monier.
Wheatland Twp., N. T. Schertz.
Leepertown Twp., Alba L. Miller.

La Moille District, L. J. Kendall, Chairman.

La Moille Twp., L. J. Kendall.
Clarion Twp., Geo. Stamberger, Jr.
Berlin Twp., J. F. Newman.
Westfield Twp., Theodore Ward, Charles Connolly.

Spring Valley District, P. M. Mahoney, Chairman.

Hall Twp., P. M. Mahoney, John O'Holloran,
Martin Zearing.
Selby Twp., Harry Ream, R. H. Lawless.

The County quota in this loan was \$1,034,-880.00 and \$1,749,700.00, or 169 per cent of the quota was raised; 9,972 persons subscribed for bonds. The subscription per capita was \$39.77. Twenty-three per cent of the population of the county subscribed. The average subscription amounted to \$175.00.

The Fourth Loan was held the latter part of September and the fore part of October, 1918. Judge Joe A. Davis and Attorney J. L. Spaulding were in charge of this loan. The complete list of officers of the county organization were as follows:

Joe A. Davis, Chairman.
Jay L. Spaulding, Vice Chairman.
Henry Fuller, Secretary and Treasurer.
Blanche Meier, Clerk.

Executive Committee

Joe A. Davis, Chairman.
Henry Fuller, Secretary.
Jay L. Spaulding.
Chas. W. Boyden.
Charles Keelen.

Publicity Organization

Newspapers, Advertising, etc., Chas. L. Trimble.
Speakers and Music, J. R. Prichard.

Fairfield Twp., Thomas Drayton.

District No. 3, P. M. Mahoney, Chairman.

Hall Twp., P. M. Mahoney.
Westfield Twp., Chas. L. Connolly.
Selby Twp., Harry Ream.

District No. 4, A. H. Ferris, Chairman.

Princeton Twp., A. H. Ferris.
Berlin, Twp., Charles L. Myers.
Dover Twp., J. J. Shugart.
Bureau Twp., John H. Becker.
Wyanet Twp., W. E. Sapp.
Leepertown Twp., Alba Miller.

District No. 5, Max W. Keigley, Chairman.

Wheatland Twp., N. T. Schertz.
Milo Twp., J. E. Monier.
Indiantown Twp., F. M. Hutchinson.
Arispie Twp., J. H. Hedrick.

In this drive a card index system, somewhat similar, yet entirely different from the one used in the Third Drive, was adopted. In order that Mr. Spaulding could be relieved of the detail work which he had been devoting to the Local Exemption Board and in order that he could put all his time into the Liberty Loan Drive, Attorney Cairo A. Trimble personally assumed the Exemption Board duties of both Chairman and Secretary.

The HONOR ROLL

September 28 was designated as the date for Bureau County to "go over the top" in the Fourth Liberty Loan. A quota of \$2,128,500 was assigned to the county. A few days ahead of the drive, a letter was mailed to every man and woman in Bureau County instructing them what polling precinct to go to on that day to subscribe for bonds to their absolute limit. The individuals were previously rated and a record given to those on duty at the various places showing the amount of money subscribed by the individual for bonds of the three previous issues and also the amount of Fourth Loan Bonds the individual was expected to subscribe for. The plan was a complete success for at 4 o'clock on the afternoon of September 28, Bureau County had gone "over the top." Selby precinct was the first precinct in the county subscribing its quota. This township went over the top shortly after 9 o'clock that morning.

A total of \$2,826,600, or 133 per cent of the quota was raised; 11,345 individuals purchased bonds. The subscription per capita was \$64.29; 26 per cent of the population of the county subscribed, the average subscription being \$249.00.

The Victory Liberty Loan was held the latter

part of April and the fore part of May, 1919. There were a few changes in the County organization. The changes and additions were as follows:

Concord Twp., Precinct No. 2, O. W. Mason.
Macon Twp., W. K. Mason.

Fairfield Twp., Will F. Harris.

C. N. Hollerich was appointed chairman of District No. 3.

Westfield Twp., Precinct No. 1, J. L. Cassidy.

Selby Twp., Precinct No. 1, Hy Hoppler.

Bureau Twp., Geo. P. May.

The same general methods that were used in the Fourth Loan were also used in securing subscriptions for the Victory Loan. April 21, 1919, was designated Victory Loan day in Bureau County. The quota assigned was \$1,597,350. All but \$26,000 of the quota was raised this day and the county went over the top the 24th. At the close of the drive, Bureau County had furnished \$1,992,850 or 125 per cent of the quota: 5,402 individuals subscribed. The subscription per capita was \$45.32; 12 per cent of the population of the County bought bonds and the average subscription was \$369.

UNITED WAR WORK CAMPAIGN

In the United War Work campaign conducted during the month of November, 1918, to raise funds for the seven approved welfare organizations including the Y. M. C. A., Y. W. C. A., National Catholic War Council, Jewish Welfare Board, War Camp Community Service, American Library Association, and the Salvation Army, Bureau County was among the leaders in Illinois in the amount of money raised. A total of \$80,104.80, which was 147 per cent of the quota assigned, was contributed by the generous people of this county, the original quota being \$54,400.00.

The campaign was carried on under the direction of Chas. E. Keelan of Walnut, Illinois, whose war record is one of the most brilliant of any Home Service worker in this county. Mr. Keelan laid aside his own business and for six weeks devoted his entire time to organizing the

workers and conducting the drive. Associated with Mr. Keelan were the following officers and committees, who supervised the work of more than one hundred and fifty precinct workers:

Executive Committee

Chas. E. Keelan, Chairman.

Chas. L. Trimble, Vice Chairman.

H. A. Clark, Secretary.

Fred H. Haskell, Treasurer.

Judge J. R. Prichard, Chairman Speakers' Bureau.

John T. O'Donnell, Chairman Publicity.

Judge Joe A. Davis.

Jay L. Spaulding.

Chas. W. Boyden.

A. H. Ferris.

George O. Smith, Chairman Volunteer Boys and Girls.

H. H. Priestley, Y. M. C. A.

The HONOR ROLL

CHAS. E. KEELAN

County Chairman of the United War Work Campaign and one of the District chairmen for the Third, Fourth and Victory (Fifth) Liberty Loans. Mr. Keelan's war record is one of the most brilliant of any Home Service worker in the County.

Mrs. Margaret McKee, Y. W. C. A.
W. F. McDonald, Natl. Catholic War Council.
Nathan Frank, Jewish Welfare Board.
Rev. C. C. Carpenter, War Camp Community Service.

Douglas Moseley, Am. Library Assn.
Earl Taylor, Salvation Army.

Selby township made an especially fine showing in this drive as a result of the personal efforts of Mr. David C. Wray, Superintendent of the Mineral Point Zinc Company at Depue. The quota for this precinct was \$1700.00 but over \$4800.00 was raised, including a subscription

of \$1500.00 from the Zinc Company. Spring Valley also over-subscribed its quota by fifty per cent, giving \$5400.00 in a lump sum from their War Chest.

The following were the chairmen of the various precincts of the county:

Fred Fetzner, Clarion.
Frank Wagner, La Moille No. 1.
A. C. Sheppard, La Moille No. 2.
O. J. Connor, Ohio No. 1.
W. C. Riley, Ohio No. 2.

YOUNG MEN'S CHRISTIAN ASS'N

By HOWARD A. PRIESTLEY, *Chairman County Y. M. C. A.*

Early in the war and before the United States entered, the Army Y. M. C. A. was organized for relief in Europe and considerable money was raised. In the spring of 1917 the city of Princeton raised a fund of \$3500.00. The greater part of this was raised at a dinner given at the Hotel Clark.

In the fall and winter of 1917 a very vigorous campaign was conducted in Bureau County and

a fund of \$17,000.00 was raised for the Army Y. M. C. A. The whole county responded splendidly this time.

In a later drive the Army Y. M. C. A. campaign was merged into the United War Work Campaign which was successfully conducted under the chairmanship of Mr. Charles E. Keelan of Walnut, with a splendid corps of helpers throughout the county.

The HONOR ROLL

WOMAN'S ORGANIZATION, COUNCIL OF NATIONAL DEFENSE OF BUREAU COUNTY, ILLINOIS DIVISION

The Woman's Committee of the Illinois Division of the Council of National Defense organized early in June, 1917, under the wonderful leadership of Mrs. Joseph D. Bowen, of Chicago. Mrs. Bowen, recognizing the efficient solidarity of the Federation of Woman's Clubs of the state, used that organization as her first agent and through the already organized clubs and their friends perfected very expeditiously a very great organization. So well was this perfected that many other states used Mrs. Bowen's method as a model.

The Woman's Committee of the Bureau County Division of the Illinois Division of the Council of National Defense was almost automatically organized also in June, 1917, one of the first counties to get to work. With the enthusiastic and intelligent leadership of Mrs. Charles W. Boyden, of Sheffield, as county chairman, much worth while work was accomplished by the Woman's Committee. Assisting Mrs. Boyden was the executive committee, county committee chairmen and township chairmen, as follows:

EXECUTIVE COMMITTEE

Chairman, Mrs. Chas. W. Boyden, Sheffield.
First Vice Chairman, Mrs. Alfred Norris, Princeton.
Second Vice President, Mrs. H.H. Priestley, Princeton.
Secretary, Mrs. H. A. Clark, Princeton.
Treasurer, Mrs. Scott Buswell, Neponset.

COUNTY COMMITTEE CHAIRMEN

Finance, Mrs. S. W. Pomeroy, Ohio.
Publicity, Mrs. H. H. Priestley, Princeton.
Child Welfare, Mrs. L. C. Houghton, Sheffield.
Courses of Instruction, Miss Edith Boyd, Sheffield.
Food Conservation, Miss Hazel Cushing, Princeton.
Information, Miss Frieda Nelson, Princeton.
Liberty Loan, Mrs. Chas. W. Boyden, Sheffield.
Americanization, Mrs. H. M. Adams, Depue.

TOWNSHIP CHAIRMEN

Fairfield, Mrs. W. E. Breed, Miss Ruth Crossell.
Greenville, Mrs. L. C. Brink.
Walnut, Miss Birdie Major.
Ohio, Mrs. Bertha Balcom.
La Moille, Mrs. H. M. Stacy.
Clarion, Mrs. I. W. Hopps.
Westfield, Mrs. Wm. Neil, Miss Viola Pottinger.
Berlin, Mrs. Frank Sutton.
Dover, Mrs. A. W. Hussey, Miss E. A. Harford.
Bureau, Mrs. Warren Spaulding, Miss Esther Tragordh.
Manlius, Mrs. G. F. Wilson, Miss Clara Dale.
Gold, Mrs. Arthur Preston.
Mineral, Miss Lena Ely, Miss Dona Pervier.
Concord, Mrs. Edna Runft, Mrs. C. E. Westcott, Mrs. Parker Mason.
Wyanet, Mrs. F. W. Nazarene, Miss Lily Bergh.
Princeton, Miss Minnie Phelps, Mrs. Alfred Norris.
Selby, Mrs. Walter Richardson.
Hall, Mrs. J. C. Sitterly, Mrs. G. F. Townley, Miss Lena Guerrini.
Arispie, Mrs. G. E. Welsh.
Indiantown, Mrs. A. L. Dunton.
Macon, Mrs. Guy Akin.
Neponset, Mrs. W. G. Blake, Mrs. R. E. Crossland.
Milo, Miss Mattie Phelps, Miss Mame Fate, Mrs. E. L. Clark.
Wheatland, Mrs. N. F. Schertz.
Leepertown, Mrs. E. M. Bedson, Mrs. M. J. Welch.

The first duty was the organization of the women of Bureau County for war service in which 89 per cent of the women 18 years of age and over were registered. These records are still intact in the various townships.

The Child Welfare Committee was very active and the results of their work are most gratifying. This work was extended through the summer of

The HONOR ROLL

1919. This committee as a unit of the Public Health Service of the state is still an organized committee under the leadership of Mrs. L. C. Houghton of Sheffield.

The Food Conservation Committee with a trained food expert, Miss Hazel Cushing, of Princeton, as chairman, did much individual and concerted work. A fine food conserving demonstration program was put on at the Bureau County Fair. Conservation cook books were sold and leaflets distributed. Substitutes demonstrated and adopted under the instruction and suggestion widely and carefully given.

Under the Publicity Chairman, Mrs. H. H. Priestley, of Princeton, weekly information was distributed through the different newspapers of the county, all of whom did this bit for the committee cheerfully and promptly. Also some of the very best patriotic meetings held during the

war were engineered by this department of the council. Fine men and women with America their theme inspired and helped everyone who heard them at these meetings.

Under the Courses of Instruction much of the Red Cross instruction work was assisted and aid given in carrying it out. Miss Edith Boyd, of Sheffield, led this work.

The Woman's Committee as a whole assisted in the Liberty Loan drives, having to their credit over \$1,000,000.00 worth of bonds sold altogether.

Back of all these committees was the Finance Committee handled by Mrs. S. W. Pomeroy, of Ohio, in true business method. The money in the hands of the committee at the time of the Council's disbanding has been and is being used toward the college education of three Bureau County girls.

THE PUBLIC SCHOOLS OF BUREAU COUNTY

GEO. O. SMITH
 County Superintendent of Schools

During the war period, Bureau County had in operation 191 public schools consisting of eight community and township high schools; eight grade and high schools combined; eighteen city and large village grade schools; 157 small village and country schools. There were 12 districts not maintaining school but sending their pupils to convenient adjoining schools. A few of these districts did this in order to release teachers for larger schools or other patriotic service.

Presiding over these schools there were 370 superintendents, principals and teachers. Officering the same were 629 school directors and members of boards of education; 75 school trustees, 25 township treasurers, and a county superintendent with two assistants.

There were enrolled in the recognized high schools of the county 1062 students; in the city and large village schools, 5504 pupils; in the small village and country schools, 2381 pupils.

All of the larger schools were supervised to a

more or less extent by the respective superintendents and principals. The smaller schools including the country schools had no supervision except that which came from the office of the county superintendent. The county superintendent also had jurisdiction over all the schools in the county and exerted a general influence as the times and occasions required. During this period Geo. O. Smith was the county superintendent. Mrs. Edna O. Clark was his assistant, serving as Club Leader and Helping Teacher. Miss Ethel M. Sharp was office assistant.

While the work of the superintendents and principals in these stressing times was most effective and their leadership always appreciated, yet the real work was done by the corps of loyal and faithful teachers. Their worth to their country can never be properly measured. They taught patriotism just as effectively as did any of the other agencies that were active in this respect. The fact that these teachers came in daily contact with nearly 9,000 boys and girls and thereby touched practically every home in the county, afforded them an unusual opportunity for patriotic service.

By the very nature of their profession teachers have always been obligated to the teaching of patriotism,—that love and respect for the country which makes possible the teaching of youth. So, even in times of peace the teachers of Bureau County were doing special work in this line. The county superintendent had for the past eight years requested the observance of special days with appropriate exercises, including the following Flag Salute:

"I pledge allegiance to my Flag and the Republic for which it stands: One Nation indivisible with Liberty and Justice for All." The observance of these days was and yet is thoughtfully followed by most of the schools of the county.

Upon the advent of our country into the world

The HONOR ROLL

war, there became a more intense interest in the teaching of patriotism. Schools that did not have good flags purchased them. Teachers and pupils manifested in every outward way their peculiar love for Old Glory and all that she stood for. To stimulate and encourage this patriotism the county superintendent frequently addressed the teachers through circular letters. He realized that the schools were one important avenue by which the latent patriotism of many homes could be aroused. When children became enthusiastic in regard to their country's welfare, parents, however indifferent, would consequently be awakened to their fuller responsibilities.

The following is a letter in which County Superintendent Smith set forth the patriotic prerequisites of every teacher and designated the ways and means by which patriotism and patriotic work might be carried out in our schools: "*Dear Teacher:*

Of course you know you ought to teach patriotism to your pupils. You are undoubtedly doing this, but how to do it more effectively may be the problem. The following are at this time considered necessary prerequisites for every teacher of patriotism:

To be overflowing with love for this country and in perfect harmony with its present policy of war against a terrible enemy.

To possess and teach respect for our country's emblem,—the Stars and the Stripes,—to know intimately its history and to practice open respect for it.

To have a clear knowledge of why the United States is at war, basing same upon authentic information such as that given out by those who know. To keep posted as to the course of current events.

With the teacher possessing the above prerequisites, he or she should have little difficulty in having pupils of the same mind. It is, however, suggested that this may more easily be brought about by each school being active along the following lines:

1. An enthusiastic observance of those days important in our national, state or county life (see County Manual), this observance to be a part of the regular school work.

2. The teaching of important current facts, such as How Came the United States into War and other topics, such as Food Conservation and Administration, Life at a Cantonment, the American Red Cross, the Y. M. C. A. Drive and what it means, Women's Registration, etc., etc. This work may be done in general exercise or in connection with other subjects. Much source material is available simply for the asking of it.

3. Special patriotic programs for the public should be frequently given by the school, or if by the public, with the school's assistance. It may be that this office can supply you with material for program. Write, stating what you need.

Regarding the latter, we call attention to the proclamation of Governor Lowden that Illinois Day, Monday, December 3rd, be observed by each community or school district with appropriate exercises by the school children, assisted by such others as may be interested. This program should be given publicly on some evening during Patriotic Week, which as announced by the Patriotic Committee of the Illinois Valley Division, is December 3 to 7.

Won't you as a teacher get busy and with the coöperation which you might have from the people of the community, pull off a rousing patriotic rally, either Monday, December 3rd, or on some other afternoon or evening of Patriotic Week? It might be agreed among yourselves to make a charge of admission and turn the net receipts to your local Red Cross Society or to the Y. M. C. A. work, or to the purchasing of Tuberculosis Seals. This will give the occasion a practical turn and thereby seem the more worthwhile. Will you not consider this matter very seriously, collect your forces and carry out something definite during the coming Patriotic Week? You will not only be doing a service to your community, but you will also be doing your bit for our country's good. Will you please keep me informed as to just what your school may be doing in this line?

In behalf of our country's good, I thank you for your part in this."

Not only were the teachers faithful in the teaching of patriotism, but they generously per-

mitted their schools to be used in every practical way for the disseminating of information regarding the various war activities. Schools were centers from which spread a good, wholesome patriotism. Not only were the schools flooded with books, pamphlets, posters, etc., for their own needs, but an abundance of material intending to acquaint the public with the situation was distributed from the schools. Among the attractive and practical material supplied the schools for use of pupils and the general public, were the following:

A beautiful poster in colors called the Escutcheon of the Flag, was presented to each school by Geo. D. Roper, a prominent business man of Rockford, Illinois.

Teachers' Patriotic Leaflets, issued free by Committee on Patriotism Through Education of the National Security League. This leaflet contained very useful material and was used in all the schools.

Community Leaflets, Lessons in Community and National Life, issued by the Bureau of Education, were distributed from the County Superintendent's office. These were sold at the actual cost of production. Many hundreds of copies were supplied free from the county office. These leaflets are still used in our schools in connection with the study of Civics.

Food Problems, a little book teaching through arithmetic the conservation of food, was used by the grade teachers in most of our schools. Many copies were distributed free from the county office.

Various Government Bulletins and other material on the war were distributed freely to all schools. These were made use of by the teachers in various ways.

Beautiful Posters used in the various drives, particularly those of the Liberty Loan and Red Cross, were found hanging on the walls of every school room.

Even more practical work than that suggested in the foregoing was done by and through the schools. School officers, teachers and pupils all had a part in practical war work of some kind or other. School officers were frequently called on to serve as solicitors in the various drives.

The school district frequently was used as the unit in the drive, and school houses were the central meeting places.

Teachers were called upon to do personal work in the sale of bonds, war savings stamps and to lead in the various out-of-school activities. High School students sold thousands of dollars worth of Liberty Bonds. Township treasurers invested thousands of dollars of the loanable school funds in Liberty Bonds.

In the War Savings Campaign the schools were important factors. In June, 1917, the school directors were requested to have all persons of their districts come to the school houses and take their respective quotas of Thrift and War Savings Stamps. This campaign was directed by C. W. Boyden, of Sheffield, with the assistance of County Superintendent Smith.

The school children were early introduced to the Thrift Stamps and taught to earn and to save money with which to buy them. Thus there was introduced for the first time into our public schools the practical teaching of thrift. Teachers were given definite plans to follow and heartily did they carry the same out. It is not definitely known how many dollars worth of Thrift Stamps were purchased by the pupils of our schools, but it is safe to say that it amounted to thousands. The teaching of thrift is still a part of our public school course. The plan recommended by the government is still advocated. To encourage this plan the teachers with the other workers of the War Saving Campaign were called together at Princeton April the 18th, 1918. The meeting was addressed by prominent representatives of the War Savings Committee of the Seventh Federal Reserve District. The Needlework Guild of Princeton encouraged the occasion by serving free a good luncheon to all delegates.

The present County Course of Study contains many references and directions regarding the teaching of Thrift in our schools. The county superintendent from time to time addresses the teachers on this subject by circular letters. All the effort has been productive of good. The children saved. They had a real motive for so doing. They were anxious to do their bit toward

The HONOR ROLL

helping Uncle Sam win the war. By their enthusiasm in saving pennies, they made the raising of billions for our nation much easier.

As a part of the United War Work Campaign the boys and girls were asked to participate in the Victory Boys' and Victory Girls' Campaign. The county superintendent was made chairman of this campaign. The object of this campaign was to secure an enrollment of every boy and girl from ten to eighteen years of age to "earn and give" at least five dollars to back up our boys who were in the army. Posters, pledge cards and other printed matter were sent out to all of the schools of the county. The following is the result of the campaign:

Total number of Victory boys pledged, 128.

Total number of Victory Girls pledged, 141.

Total amount of money pledged by boys, \$574.00.

Total amount of money pledged by girls, \$547.75.

There was presented to every boy or girl who gave \$1.00 or more to this fund a beautiful certificate. Most of the boys and girls above mention paid the full amount of their subscription.

The schools of the county also were called upon to assist in the campaign for increased production of food and the conservation of fuel and food. The organization which encouraged the work among boys and girls was that known as the Boys' and Girls' Club Work. In this county this work began as a war measure. The movement was supported by the government through the War Emergency Fund. This fund contributed part of the salary of the Club Leader. Club work began in earnest in Bureau County in the spring of 1918, under the leadership of three of our teachers who were secured to direct the work. They were Mrs. Edna O. Clark of Walnut, Mrs. Wilbur Blake of Neponset, and Mrs. Belle J. Hight of Bureau. Twenty clubs were organized with an enrollment of 562 boys and girls. They were interested in the following projects: Pig, Calf, Canning, Garden, Poultry, Garment. At the close of the Club year the boys and girls had the following record of production to their credit:

3979 pounds of beef; 5473 pounds of pork;

340 chickens; 463 quarts of fruits and vegetables; 300 garments.

Many of the calves, pigs, chickens and garments produced by these boys and girls were exhibited at the Bureau County Fair.

Bureau County won special distinction in this Club Work in its first year. The Neponset Garment Club and the Sheffield Canning Club each won first place in the State Demonstration Contest held at Springfield in connection with the State Fair. The Sheffield team represented Illinois at the Inter-State Fair Demonstration Contest at Sioux City, Iowa. Irene Nordstrom of Tiskilwa, won the State Pig Club Championship for 1918. As a reward she received a free trip to the International Livestock Exposition.

So popular and practical did this work of the boys and girls in Club Work seem that it was decided to continue the work under a competent County Club Leader. Mrs. Edna O. Clark began work as such, October 1, 1918. While the work is no longer receiving support from the War Emergency Fund and cannot to any extent be considered a war measure, it still has a practical value and will undoubtedly be continued.

In connection with the campaign for food production, it is proper to call attention to the work of the schools in encouraging boys to take up farm work in their vacation periods. Some schools released boys for farm work before school closed and gave them full credit for their year's work on condition that their farm work was satisfactory. This work was mainly carried out under the Boys' Working Reserve. The following letter, however, was sent out to teachers and school boards and directed their attention to prevent loss of schooling of pupils:

"Our Uncle Sam wishes every man and woman, boy and girl, to do his or her share to win the war. He, however, does not, as expressed by President Wilson, expect the great sacrifice to fall upon the children of his country. Our President says: 'That no boy or girl should have less opportunity for education because of the war and that the Nation should be strengthened as it can only be through the right education of all its people.' This means that no child shall be kept out of school when school is in session un-

The HONOR ROLL

less there is a good reason. The only legitimate excuse for absence from school for children between the ages of 7 and 14 is sickness. Keeping children between these ages out of school to work is contrary to the law of Illinois and parents are liable to a severe fine for so doing. This means that the State is greatly concerned in seeing that every boy and girl shall receive the education due him or her, which is equivalent to completing the Eighth Grade as outlined in our County Manual.

Now here comes the question. There is a decided shortage of labor and farmers will likely have trouble getting enough help to get their corn crop husked. Boys of the upper grade could help in this important work and would likely be called upon by their parents and others to do so, provided they lose no schooling. They do not want to disobey the law.

Owing to the serious situation we feel justified in recommending the following plan:

1. That all schools keep open, none to close to let pupils out to work.

2. That pupils 12, 13 and 14 years of age or older may stay out of school only to assist in picking the corn crop. This will probably not take more than three weeks.

3. That each teacher whose older pupils are out for this reason shall give her time more intensely to the younger pupils, advancing them as rapidly as this additional time may warrant.

4. That when the older pupils return to school they shall take up their work where they left off. The teacher then should give them special attention even to the extent of hearing them recite some classes twice a day. This means that the smaller pupils will not have quite as much time. They must not, however, be neglected.

5. That these older pupils be required to begin work at 8:30 a. m., and quit at 4:30 p. m., thus adding another hour to their school day during the time required to make up the loss. That the teacher meet these same pupils for two hours or so each Saturday for a few weeks or until the pupils are brought up to grade.

6. Of course this means much extra work for the teacher and because of this, we urgently

recommend that the directors allow the teacher extra pay for this work.

By this plan, parents, teacher and pupils may work together and thereby prevent the loss of education to these children which President Wilson warns us against.

Therefore, teachers and school boards are directed to give this plan immediate attention, adopting it if it is thought best. This is not compulsory, but it is our best solution to this very difficult situation. We are confident that this plan if adopted will satisfy the intent of the compulsory attendance law, which would not be the case if parents simply kept their children out of school to work and did not consider their schooling as necessary.

Should you as a teacher have any difficulty in carrying out this plan, if adopted, we want you to let us know immediately. We believe we can help you succeed with it.

We shall be pleased to know what you think of this plan. If you adopt it, we would have the teacher send us the names of the pupils who are to take advantage of it."

The schools also participated in the campaign for fuel conservation. Material was distributed to the pupils for them to carry home. Little tags advocating "Save a Shovel Full of Coal a Day" were given out to the children to tie on the fuel shovels at home. During the winter of 1918 the schools were ordered closed on account of the unusual coal shortage. They remained closed for the week of January 21st to 25th. School boards and teachers endured this severe test of patriotism with very little complaint. The effect of this closing upon the general work of the school was quite detrimental.

At the request of the Department of Agriculture, the schools were drafted to take a census of all the cattle and hogs in their respective districts. This work was cheerfully done by the boys and girls and was directed by teachers with the assistance of the school boards. The County Advisor and County Superintendent directed the work for the county.

There was organized in most of the schools of the county Junior Red Cross Societies, many of them becoming one hundred per cent mem-

bership schools. The members of the various societies did work similar to the Senior Red Cross and made sweaters, socks, wristers, helmets, wash-rags, gun wipes and other articles. They also made scrap-books and collected magazines to be sent to the soldiers in the camps. The pupils of the whole school collected nut pits and carried home the requests of the government for optical instruments. In the matter of relief work the schools also made articles for the destitute people of Belgium and France. They made garments, collected clothing, including shoes, hats, coats, socks, trousers, dresses, garments for children, blankets, etc. A few of the schools had Junior Four-Minute Men who on school occasions and frequently in the regular school program gave four-minute patriotic talks.

Finally, it is well for the public to know the names of those teachers who left their schools and entered the service of their country. Herewith is a list of those together with the names of the schools they were serving when they went into service:

The HONOR ROLL

At a special meeting of the Directors of the Bureau County Chapter held at the City Hall in Princeton on March 19, 1919, the question of disbanding the Chapter was presented to the members present. The Chairman expressed his belief that the work of the Red Cross in Bureau County should be continued; that the nurses are needed both for the work in the schools and in the instruction of classes in Elementary Hygiene and Home Care for the Sick. On motion made by Rev. Dew Brittain it was voted to continue for another year. Mr. Lovejoy tendered his resignation as Chairman of the Chapter and Karl B. Seibel as Secretary.

A special meeting was called for April 2, 1919, to fill the vacancies and the following report of the Nomination Committee, of which Geo. O. Smith was Chairman, was made: Perry D. Trimble was nominated and elected Chairman, and John T. O'Donnell as Secretary.

At another special meeting held on June 5, 1919, the Chapter decided to organize a Home Service section and also a Public Health Nursing Service, and the officers of the Chapter were authorized to proceed with the necessary arrangements.

During the war period among the activities of the Bureau County Red Cross Chapter was the Teaching Center which conducted First Aid classes and also classes in Elementary Hygiene and Home Care of the Sick. In the former, 394 pupils were enrolled, and in the latter, 228 pupils. The advanced class in First Aid had six pupils.

The first year of the war, 1917, found the Red Cross with a membership of 6,390. In 1918 this number was increased to 8,071 and the Christmas Roll Call in 1918 showed 9,677 members subscribed. Thirty schools in the County had Junior Red Cross Auxiliaries, with a total enrollment of 1,944.

During the year, 1917, the receipts of the Red Cross Chapter amounted to \$12,106.21, out of which \$9,583.15 was expended for War Relief, leaving a balance on hand of \$2,523.06.

During the year, 1918, there was subscribed a total of \$29,756.77, with expenditures of \$18,150.38, leaving in the treasury at the end of that

year \$11,606.39. The receipts for the Christmas Roll Call were \$6,301.25.

The Workshop from November 1, 1917, to March 1, 1919, shipped to Central Division Headquarters 391,401 articles packed in 304 boxes. These articles included surgical dressings, knitted goods, refugee garments, bags, gun wipes, etc. Up to June 20, 1918, the Junior Auxiliaries made 63,498 articles. After June 20, 1918, the Juniors worked in the Workshops of the Chapter, and besides that gave entertainments, the receipts of which were delivered over to the Red Cross Chapter. During this time many "flu" masks were made.

In addition to the War Relief activities of the Red Cross, the Chapter also carried on Home Service work, taking care of the soldiers' allotments, allowances, bonus and other relations with the Government, and also wrote many letters on account of the soldiers' families, besides rendering financial aid to those in distress.

When the influenza epidemic broke out in the County about April 1, 1918, the Red Cross met the emergency by supplying nurses and other assistance to the afflicted. Fifty-two practical nurses were engaged besides thirty-four graduate nurses, who gave their services to 192 families, in many of which there were from three to four members, and sometimes even more, sick at one time. In all cases where financial assistance was necessary the Red Cross gave generously, providing food, medical care and other aid until the emergency period had passed.

A nurses' campaign was carried on by the Red Cross; ten student nurses were registered, four for overseas Red Cross work, and twenty graduate nurses were found in the County survey.

The Red Cross rendered valuable assistance in the Drive for Belgium Relief. On March 28, 1918, 4,653 articles were shipped from this County and on October 4, 1918, 10,718 pounds including shoes, clothing, socks and various other articles were sent out.

In April, 1919, 8,000 pounds of clothing were shipped to Belgium.

The Chapter coöperated with the Government in gathering pits and nut shells for gas

masks. Two shipments were made by the Chapter to the United States Warehouse at Peoria and another shipment was ready at the time the

campaign for pits and nuts was stopped. The two shipments made amounted to more than 2,000 pounds.

Membership cards were sent from Washington. On account of the new organization, it was necessary to wait for the Bureau County Chapter to organize.

Mrs. W. E. Howard was appointed director. The charter members met at her home and elected the following officers:

Mrs. S. W. Pomeroy, Secretary.
Mr. A. C. Ruff, Treasurer.
Mrs. T. E. Blanchard, Membership.
Dr. H. Hamnet, Ways and Means.
Mrs. W. S. Warfield, War Relief.

Mrs. J. O. Hawks, Refugee Garments.

The city hall was fitted for the workshop and opened for work June 24, 1917.

Mrs. W. S. Warfield and Mrs. W. E. Howard took the surgical dressing course in Princeton.

The membership drive began June 24, 1917, with a public meeting at the opera house. Membership drive was 566 for 1917.

July 11, 1917, the Ways and Means Committee planned a "Red Cross Day."

The proceeds of a ball game, supper, picture show, and dance was \$299.81.

All officers were re-elected Oct. 29, 1917; also Mr. O. J. Conner was elected chairman of the Home Service Committee.

In March, 1918, a Junior League of Red Cross was formed in the public schools.

The Ways and Means Committee had charge of a very successful auction sale and dinner which was held March 26, 1918. The proceeds were \$3,132.57.

Mrs. Hamnet collected and sent to Camp Grant a barrel of jellies and canned fruit. She also had charge of collection of fruit pits and nut shells.

They organized for influenza relief, Mrs. Caroline Hickey, R. N., Chairman of Nursing Corps; Mrs. A. C. Ruff, Chairman of Motor Corps, and Mrs. John Weis, Chairman of Food Supply for afflicted families. This branch of service was very efficient and administered to all who were in need of help at that time.

The War Relief Committee report: Surgical dressings, 13,200; Hospital garments, 326; Infants' layetts, 180; Refugee garments, 324. THE HONOR ROLL

These officers and committees remained the same during the period of the war except the director. Mrs. Beatty resigned in October, 1917, and Mrs. J. G. Grisell was elected to fill the vacancy. Mrs. J. O. Hawkes acted as director the latter part of the winter of 1918 during the absence of the director.

The greatest membership was 136 in 1918. Different lines of work were Hospital, War Relief, and Refugee. Some relief work was done at home during the siege of influenza. Xmas boxes were sent to all Van Orin boys.

Money was raised by serving dinners at public sales and ice cream was sold almost every Saturday evening during the summer of 1918. On May 25, 1918, there was a sale of donated articles. Some of the farmers gave almost a car load of fat hogs. The sale netted nearly \$3,500.00. At the close of the war there was still quite a sum in the treasury; \$500.00 was sent to Chicago and \$660.00 spent to help in the peace time program being carried on in the county.

HEATON'S POINT

At the regular monthly meeting of the Heaton Point Household Science Club which met June 14, 1917, at the home of Mrs. Wm. Lane, the Heaton Point Red Cross Auxiliary was organized.

Mrs. Margaret Catherman was made director and Miss Addie Swartz, Secretary and Treasurer. There were 13 enrolled as members and new ones were received from time to time until on May, 1918, there was a membership of 61.

As there was not a workshop, the meetings were held from month to month at the respective homes.

Many meetings were held semi-monthly, as the call for supplies "over there" became greater. All day sessions were held at the houses and at the Princeton workshops where compresses,

The Ways and Means Committee raised funds very successfully by bake day sales, suppers,

dances, picture shows, minstrels and auctions. The Ladies' Aid of both churches contributed money from their treasury and by giving ice cream socials. The lodges and Women's Clubs added to the fund. A movie machine was bought through the generosity of Mr. Herbert Lyle, Mr. M. O. Scott, Mrs. Scott Buswell and Miss Nell L. Stetson and run for the Red Cross during the war. It is now used for the Library. Mr. E. F. Norton, in 1918, gave three acres of ground, which under the good management of Mr. John Hoogland was planted to potatoes, netting the Red Cross \$375.00. Nearly all the labor was donated. Many individual donations helped to swell the fund. The 1918 drive Mr. Wm. Gould, chairman, brought in over \$2,000. Total amount raised, approximately \$5,300.00. Total membership in 1918, 500.

The Ladd ladies were very faithful and worked hard, filling the quotas for surgical supplies and such other relief work assigned to them by the Chapter.

Every boy who left Ladd was supplied with a soldier's kit.

All funds were raised through popular subscription, various forms of entertainment, and through donations received from the Ladd War Relief Fund.

After peace was declared the work shop was closed, but some relief work was done in the village.

The HONOR ROLL

DR. HENRY D. STEELE

Member examining board of physicians for division Number 1, specializing in eye, ear, nose and throat examinations.

M. O. SCOTT

One of the army of postmasters who rendered efficient "home service" to the War Department in the many and varied services requested of the postmasters, recruiting for both army and navy, obtaining and furnishing to the department much valuable information. Mr. Scott also aided in inducting a number of so-called slackers into the service, invariably turning down the fee in such cases provided, recommending the easiest entry for the boys.

REV. J. BRAINARD BROWN

Pastor Manlius Baptist Church. Four-minute man. Gave 608 addresses, planned and held 14 special patriotic rallies; canvassed Wyand Township for Red Cross, war charities, and Liberty Loans, seven times.

VALENTINE WARKINS, Sr.

Born January 10, 1831, in Virginia. Although somewhat above the draft age, "Grandpa" Warkins enthusiastically did "his bit" in donating to Red Cross, War Activities and Liberty Bonds.

The HONOR ROLL

SOLDIER BOYS' COMMITTEE OF THE PRINCETON COMMERCIAL CLUB

When the war was declared in 1917 the Commercial Club appointed the following committee as the Soldier Boy Committee:

Palmer E. Anderson, Chairman
F. H. Haskell
Dr. T. P. Gunning
C. H. Kelley
C. F. Anderson
J. L. Coulter
Howard H. Priestley

The duties of this committee were to represent the citizens of Princeton and Bureau County in making all arrangements for the soldiers incident to their departure for the front—this included a farewell speech at the Court House by one of our ministers or some prominent citizen, songs by Miss Bess Morgan and Miss Alice Waddell, then a procession to Hotel Clark where a dinner was served which was furnished to the enlisted men by the government and to the volunteers by the Soldier Boys' Committee. At the hotel the boys were splendidly entertained by songs by Miss Morgan and Miss Waddell who always gave their services with a beautiful spirit and sympathetic interest and were enthusiastically received by the departing soldiers.

After dinner at Hotel Clark the soldiers were escorted to the depot by a band, and the members of the Grand Army of the Republic in automobiles and citizens.

There were one thousand soldier boys who

left in many different groups and each group was sent off in the same manner with a promise that they would receive just as enthusiastic a reception on their return.

Some of our soldiers were called by death and for each one of them Memorial Services were held under the management of the Soldier Boys' Committee.

On Sept. 9th, when nearly all our soldiers had arrived home, the committee arranged and carried out with the help of a lot of loyal citizens of Princeton and the county a Home Coming Day for all the soldiers of Bureau County. This was probably the greatest event ever held in Bureau County. Over 25,000 people attended it to do honor to all our soldiers who served in the World War. Program was given at the Fair Grounds and included a big Barbecue dinner at which over two tons of meat and thousands of loaves of bread were served. That this Home Coming Day program was carried out without any charge to those who attended was made possible by the donation of meat and money by the citizens of Bureau County who were loyal to our soldiers and wanted to carry out the promise to give them as fine a reception as was given when they left for the front.

The committee was engaged in all soldier activities from the beginning of the war to the final reception in the form of a Bureau County Soldier Home Coming Day held in Princeton, September 9, 1919.

and sea fortifications; merchant vessels to be returned; no destruction of ships or material; naval and marine prisoners to be returned without reciprocity.

Nov. 5—Marshal Foch has the allies' armistice terms ready for the Germans.

Southward from Ghent the Americans went further over the Scheldt, above Audenarde, while south of there British forces occupied a wide stretch of the eastern river bank.

Pershing's First Army continued its advance on both banks of the Meuse. Crossings were made north and south of Dun, and large forces made good their hold on the hills of the eastern bank and pressed on toward Stenay, from which they were distant six miles, and Montmedy. By an advance of more than four miles on the centre (where the Metropolitan Division from New York has been operating) they passed beyond Raucourt Wood to within five miles of the point where the great trunk line to Metz crosses the river and within eight miles of Sedan.

The American forces later captured Linydevant-Dun, six miles south of Stenay, east of the Meuse. They were also occupying the hills on the east bank of the river, despite a stiff machine gun resistance by the Germans.

Nov. 6—Reports from the centre of the American line are to the effect that the town of Mouzon is on fire and that part of Sedan is burning. Its footing established east of the Meuse, the American army has forced its way along both banks of the river to within six miles of Sedan. American and French troops continue their advance. Murvaux, north of the Freya line and east of Dun, was reached this afternoon, and operations about the heights to the east of Sedan are under way.

Nov. 7—The Americans have not only captured Sedan in their advance on both sides of the Meuse, but have made a jump toward the Briey iron mines, which the Longuyon line protects. Longuyon for several days has been under the fire of American guns. With that part of Sedan resting on the western bank of the river occupied, the American army is consolidating its positions and preparing for a further advance. It was contingents of the noted Rainbow Division and of the First Division that made the final whirlwind dash into Sedan. A premature publication in afternoon newspapers that peace terms had been agreed to by Germany made New York City delirious with joy; whistles and sirens blew, bells rang, business was practically abandoned and the streets filled up with merry-makers very similar to an old night before New Year celebration. The excitement continued to a late hour in spite of publication of denials of authenticity of report.

Nov. 8—Germany's armistice delegates were received by Marshal Foch at 9 a. m. in a railroad car in which the commander-in-chief has his headquarters. Matthias Erzberger, leader of the enemy delegation, speaking in French, announced that the German government had appointed them plenipotentiaries to take cognizance of the terms and eventually to sign an armistice. Marshal Foch then read the terms to them, dwelling upon each word. They made a few observations, pointing out difficulties in the way of carrying out some secondary clauses. Then Erzberger asked for a suspension of hostilities. This request Marshal Foch refused. The delegates, having obtained permission to send a courier to Spa, German Great Headquarters, and communicate with that place

by wireless, withdrew. The armistice terms called for an answer within 72 hours, expiring at 11 a. m. Monday.

The Americans have improved their positions beyond Sedan on both sides of the river, consolidating their tremendous gains of the last four days.

Emperor William has refused a demand of the Socialists that he and the Crown Prince abdicate. Chancellor Maximilian, unable to control the Socialists, who are the most powerful bloc in the Reichstag majority, has resigned.

Nov. 9—"The Kaiser and King has decided to renounce the throne," officially announces the retiring chancellor, Prince Maximilian of Baden. Prince Max acted a few hours as regent.

The Americans advanced everywhere along their line. The enemy artillery fire was from large calibre guns, indicating positions a great distance away. One American division reached Mouzey in its forward march, despite machine gun resistance and a fire from mine-throwers. Five American ambulances drove by mistake into the German lines northeast of Liondevant-Dun and were captured. Comrades organized a rescue party and returned with the ambulances, four prisoners and three guns. The Americans are in control of both sides of the Meuse and occupied Remoiville Wood. They crossed the river at Mouzon, thus making their line on both sides complete from Villers-devant-Mouzon southward.

Nov. 10—The German courier from the meeting place of the armistice negotiations arrived at German great headquarters at 10 a. m. He had been delayed by an explosion of an ammunition depot, which he mistook for firing.

The ex-Kaiser and suite fled to Holland, arriving at Eysden, on the frontier, at 7:30 a. m.; thence he went to the Chateau Middachten, owned by Count William F. C. H. von Bentinck, at De Steeg, a town on the Guelders Yssel, an arm of the Rhine, 12 miles from the German border.

Count zu Reventlow flees to Denmark. Among the incidents of the revolution is the renunciation by the Grand Duke of Saxe-Weimar and his family of the right of exemption from taxation.

William II, the reigning King of Wurttemberg, abdicated on Friday night, according to Havas Agency dispatches from Basel.

The First and Second American armies in their attacks extending along the Moselle and the Meuse advanced on a front of 71 miles. French troops operating under the American command also advanced at various points. The captured territory includes the German stronghold of Stenay, Grimaucourt, east of Verdun, and numerous villages and fortified positions in Lorraine. The entire district in the region of Stenay was flooded by the Germans, who dammed the canals and rivers. The Americans, crossing the River Meuse from below, took Stenay in a great northward push. The Germans shelled the Verdun road in the regions of Cesse, Beaumont, Mouzon and Bellan. The Mouzon bridge was broken in two places. Along the Meuse from the region of Sedan to Stenay the enemy machine gunners, clinging to the hills overlooking the river, kept flares burning all during Saturday night, preventing the Americans from crossing.

Nov. 11—German envoys signed the allied armistice terms at Senlis at 5 a. m., Paris time, which took effect at 11 a. m., Paris time (6 a. m., New York time).

THE HONOR ROLL

Delay for evacuation prolonged by 24 hours for the left bank of the Rhine besides the five days, therefore, 31 days in all. A supplementary declaration to the armistice terms was signed to the effect that in the event of the six German battle cruisers, ten battleships, eight light cruisers and fifty destroyers not being handed over owing to a mutinous state, the allies reserve the right to occupy Heligoland as an advance base to enable them to enforce the terms.

President Wilson reads the terms of the German armistice to congress in joint session, and announces the end of the war. Similar declarations were made to the British parliament, the French National Assembly, and at other allied capitals. In New York and other great cities the event was hailed by celebrations.

When fighting ended the German front line opposite the First American army, running south and north, was approximately as follows: From north on the Chateau d'Hannoncelles, through the Bois de Lavale, the Bois de Manheulles, the Bois Masseneue, thence northwest, passing east to Blanzee, east of Grimacourt, east and north of Nobras Woods, thence through the Grand Chenas, east of Bezonvaux, through the Herbebois Woods, east and north of Hill 319, north of Chaumont-devant Damvillers and Hill 324, to the east side of the Thiente Brook and the Damvillers-Metz road, north of Remoiville to the north of the Forest of Woevre and Paalon, to east and north of Stenay, and thence north and slightly west to the end of the sector north of Mouzon, along the Meuse.

The front of the Second Army from south to north was: Noemy to Eply, through the Bois Voirrotte, through the Bois Frehaut, to the Moselle River and up the river to a point about two-thirds of a mile south of Pagny and thence west to a point one-third of a mile south of Prency. Thence through Rembécourt to the north of the Bois Dommartin and the Mainbois Farm, skirting the northern end of Lake Lachaussee, through the Bois les Hautes Epines, through the Bois de Wavrille, St. Hilaire, Marcheville, Riaville to one-third of a mile south of Ville-en-Woevre.

On the front of the First and Second Armies, between the Meuse and the Moselle, allied troops hold the former German front line villages of Ronvaux, Watronville, Blanzee, Moranville, Abaucourt, Dieppe and Bezonvaux.

Thousands of American heavy guns fired the parting shot at the Germans at exactly 11 a. m. At many batteries the artillerists joined hands, forming a long line, as the lanyard of the final shot. There were a few seconds of silence as the shells shot through the heavy mist. Then the gunners cheered. American flags were raised by the soldiers over their dugouts and guns and at the various headquarters. Individual groups unfurled the Stars and Stripes, shook hands and cheered.

1919

The Peace Conference, called the "Second Peace of Versailles," was participated in by the United States, British Empire, France, Italy, Japan, and twenty-two other powers, consisting of Belgium, Bolivia, Brazil, China, Cuba, Czecho-Slovakia, Ecuador, Greece, Guatemala, Haiti, Hedjaz, Honduras, Liberia, Nicaragua, Panama, Peru, Poland, Portugal, Roumania, Serb-Croat Slovene Kingdom, Siam, Uruguay, on one side, and Germany on the other. Austrian and Turkish delegates were not signatures to the Peace Treaty.

Thirteen other countries were invited to accede to the Covenant, consisting of Argentina, Chile, Colombia, Denmark, Netherlands, Norway, Paraguay, Persia, Salvador, Spain, Sweden, Switzerland and Venezuela.

The Treaty was signed at Versailles, France, June 28, 1919, and referred to the various governments for ratification.

The representatives of the United States at the Peace Conference were President Woodrow Wilson; Robert Lansing, Secretary of State; Hewey White, formerly Ambassador Extraordinary and Plenipotentiary to Italy and France; Col. Edward M. House, Special Representative of the President of the United States; Gen. Tasker H. Bliss, Military Representative of the United States on the Supreme War Council.

SUMMARY OF THE TREATY OF PEACE WITH GERMANY

"SECOND PEACE OF VERSAILLES"

The preamble names as parties of the one part the United States, the British Empire, France, Italy, and Japan, who with Belgium, Poland, and twenty other smaller powers are described as the allied and associated powers, and on the other part Germany.

On the request of the Imperial government an armistice was granted on Nov. 11, 1918, by the allies, in order that a treaty of peace might be concluded, and that the war should be replaced by a firm, just and durable peace, the plenipotentiaries agreed as follows:

"From the coming into force of the present treaty, the state of war will terminate, and official relations with Germany will be resumed by the allies."

PART I—The covenant of the League of Nations constitutes Part I of the peace treaty, which places upon the league many specific and general duties. Members will be the signatories of the covenant and others who declare accession without reservation within two months. A new state may be admitted by vote of two-thirds of the assembly. A state may withdraw upon giving two years' notice.

Assembly—Will consist of representatives of the members, and will meet at stated intervals. Each member will have one vote, and not more than three representatives.

Council—Will consist of representatives of the five great allied powers, with representatives of members selected by the assembly, and will meet at least once a year. Each state will have one vote and not more than one representative.

Secretariat—A permanent secretariat will be established at the Seat of the League, Geneva.

Armaments—The council will formulate plans for a reduction of armaments, to be revised every ten years.

Preventing of War—Members are pledged to submit disputes to arbitration, and not to resort to war until three months after the award. The council will establish a permanent court of international justice to determine disputes or to give advisory opinions.

Members resorting to war in disregard of the covenant will be immediately debarred from all intercourse with other members. The council will consider what action can be taken by the league for the protection of the covenants.

Validity of Treaties—All treaties concluded after the institution of the league will be registered with the secretariat and published.

Monroe Doctrine—The covenant abrogates all obligations between members inconsistent with its terms, but nothing in it shall affect the validity of international engagement, such as treaties of arbitration or regional understandings, like the *Monroe Doctrine*, for securing the maintenance of peace.

The Mandatory System—The tutelage of nations not yet able to stand by themselves will be intrusted to advanced nations who are best fitted to undertake it.

World Labor—The league members will endeavor to secure and maintain fair conditions of labor for men, women, and children in their own countries and

other countries, and just treatment of the native inhabitants of territories under their control.

Annex—Original Members of the League of Nations Signatories of the Treaty of Peace, and States invited to accede to the Covenant.

Part II—Boundaries of Germany—From the frontiers of Belgium, Holland, and Germany, south to neutral Moresnet, east line of Eupen, northeast and east line of Malmédy to Luxemburg; north and east line of Saar Basin; north and east line of Alsace-Lorraine; present Switzerland frontier; Austria frontier of Aug. 3, 1914; Czecho-Slovakia frontier, or old frontier between Germany and Austria, to near Neustadt; thence north, west, northwest and north-northeast to the Baltic Sea, near Leba.

PART III—Belgium—Germany is to consent to the abrogation of the treaties of 1839, by which Belgium was established as a neutral state, and to agree to any convention with which the allies may determine to replace them; to recognize the full sovereignty of Belgium over the contested territory of Moresnet, the circles of Eupen and Malmédy, the inhabitants of which, within six months, to protest against this change of sovereignty, the final decision to be reserved to the League of Nations.

Luxemburg—Germany renounces her various treaties and conventions with Luxemburg from Jan. 1, last.

Left Bank of the Rhine—Germany is forbidden to maintain or construct any fortifications or to maintain armed forces less than fifty kilometers to the east of the Rhine.

Saar Basin—As compensation for the destruction of coal mines in northern France, and as payment on account of reparation. Germany cedes to France full ownership of the coal mines of the Saar basin with their subsidiaries, accessories and facilities. The territory will be governed by a commission.

After fifteen years a plebiscite will be held to ascertain the desires of the population as to continuance under the League of Nations, union with France, or union with Germany; all inhabitants over 20 years resident therein will have the right to vote.

Alsace-Lorraine—The territories ceded to Germany by the treaty of Frankfurt are restored to France, with their frontiers as before 1871, to date from the signing of the armistice, and to be free of all public debts. All public and private property of German ex-sovereigns passes to France without payment or credit, as well as ownership of railroads and rights over concessions of tramways. The Rhine bridges pass to France with the obligation for their upkeep.

Austria—Germany recognizes the independence of Austria.

Czecho-Slovakia—Germany recognizes the complete independence of the Czecho-Slovak state, including the autonomous territory of the Ruthenians south of the Carpathians.

Germany renounces in favor of the Czecho-Slovak state all Silesian territory in the Kreis of Ratibor, to the south of Katscher and west of Kranowitz. Germany renounces in favor of the Czecho-Slovak state the Kreis of Leobschutz south and southeast of Leob-

schutz, in case the plebiscite decides for Germany instead of for Poland.

Poland—Germany cedes to Poland Posen, and the province of West Prussia on the left bank of the Vistula. A plebiscite will be held in Upper Silesia to decide whether the inhabitants wish to be attached to Germany or Poland.

East Prussia—The southern and eastern frontier is to be fixed by plebiscite, the first in the regency of Allenstein, and the second in the circles of Stuhm and Rosenberg and the parts of the circles of Marienburg and Marienwerder.

Poland, Germany, and Danzig will assure suitable railroad communication across German territory on the right bank of the Vistula between Poland and Danzig, and Poland shall grant free passage from East Prussia to Germany.

Memel—The northeastern corner of Prussia, about Memel, is to be ceded by Germany to the allies.

Free City of Danzig—Danzig and the district about it is to be constituted into the "free city of Danzig."

Schleswig—The frontier between Germany and Denmark will be fixed by the self-determination of the population. The region north of the line from Flensburg Fohrde, southwestward and westward to the North Sea, south of the islands of Fohr and Amrum, will be administered by a commission of seven; the population will vote in two zones, after which a new frontier will be drawn and Germany will renounce all sovereignty over Schleswig.

Helgoland—The islands of Helgoland and Dune shall have all fortifications and harbors destroyed.

Russia and Russia States—Germany agrees to abrogate the Brest-Litovsk and other treaties, to recognize all treaties entered into by the allies with states which were a part of the former Russian empire.

PART IV—Outside Europe, Germany renounces all rights, titles, and privileges as to her own or her allies' territories to the allies, and accepts whatever measures are taken by the allies in relation thereto.

German Colonies—Germany renounces in favor of the allies her colonies and overseas possessions.

China—Germany renounces in favor of China all privileges and indemnities resulting from the Boxer protocol of 1901, except Kiau Chau, and agrees to return to China, all the astronomical instruments seized in 1901. Germany accepts the abrogation of concessions at Hankow and Tientsin, China agreeing to open them to international use. She renounces in favor of Great Britain her property at Canton, and of France and China jointly, the German school at Shanghai.

Siam—Germany abrogates all agreements with Siam made before July 22, 1917.

Liberia—Germany renounces all rights under the international arrangements of 1911 and 1912 regarding Liberia.

Morocco—Germany renounces all her rights, titles, and privileges under the act of Algeiras and the Franco-German agreement of 1909 and 1911.

Egypt—Germany recognizes the British protectorate over Egypt, and renounces the capitulation, and all the treaties concluded by her with Egypt; consents also to the transfer to Great Britain of free navigation of the Suez Canal.

Turkey and Bulgaria—Germany accepts all arrangements which the allies make with Turkey and Bulgaria.

Shantung—Germany renounces, in favor of Japan, all rights, titles, and privileges, notably as to Kiau-Chau and the railroads, mines, and cables acquired by her treaty with China of March 6, 1897, and of all other agreements as to Shantung Province.

PART V—Military Forces—Within three months of the peace the number of effectives must be reduced to 200,000. The demobilization of the German army must take place not later than March 31, 1920. Its strength may not exceed 100,000, including 4,000 officers, with not over seven divisions of infantry, and three of cavalry, to be devoted exclusively to maintenance of internal order and control of frontiers. Divisions may not be grouped under more than two army corps headquarters staffs.

Armaments—All establishments for manufacturing or storage of arms and munitions of war must be closed within three months of the peace. The manufacture or importation of all kinds of gases and all analogous liquids is forbidden. Germany may not manufacture such materials for foreign governments.

Conscription—Conscription is abolished in Germany. The enlisted personnel must be maintained by voluntary enlistments for terms of twelve consecutive years. Officers remaining in the service must agree to serve to the age of 45 years, and newly appointed officers must agree to serve actively for twenty-five years.

Fortresses—All forts and field works situated in German territory within a zone fifty kilometers east of the Rhine will be dismantled within three months. The fortified works on the southern and eastern frontiers may remain.

Naval—The German navy must be demobilized within a period of two months after the peace. She will be allowed six small battleships, six light cruisers, twelve destroyers, twelve torpedo boats, and no submarines, either military or commercial, with a personnel of 15,000 men, including officers, and no reserve force of any character.

Only voluntary service is permitted, with a minimum period of twenty-five years service for officers and twelve for men. Mercantile marines will not be permitted any naval training.

All German vessels of war in foreign ports will be surrendered, the final disposition to be decided upon by the allies; all war vessels under construction, including submarines, must be broken up. The largest armored ship Germany will be permitted will be 10,000 tons. She is required to sweep up the mines in the North and Baltic seas. All Baltic fortifications must be demolished; other coast defenses are permitted, but guns must not be increased.

Only commercial wireless messages may be sent during three months after the peace.

Aircraft—One hundred unarmed seaplanes are to be retained till Oct. 1, to search for submarine mines. No dirigible shall be kept. The entire air personnel is to be demobilized within two months, except for 1,000 officers and men retained till Oct. 1. The manufacture of aircraft or parts is forbidden for six months.

Control—Interallied Commissions of control will see to the execution of the provisions; they may establish headquarters at the German seat of government and go to any part of Germany. She must give them complete facilities, pay their expenses, and also the expenses of execution of the treaty.

PART VI—Prisoners of War—The repatriation of German prisoners and interned civilians is to be car-

ried out at Germany's expense by a mixed commission; Germany is to restore all property belonging to allied prisoners. There is to be a reciprocal exchange of information as to dead prisoners and their graves.

Graves—Both parties will respect and maintain the graves of soldiers and sailors buried on their territories.

PART VII—Penalties—The allies publicly arraign William II of Hohenzollern, formerly German emperor, for a supreme offense against international morality and the sanctity of treaties.

The ex-emperor's surrender is to be requested of Holland, and a special tribunal set up composed of one judge from each of the five great powers, which will fix the punishment it considers should be imposed.

PART VIII—Reparation—The allies affirm and Germany accepts the responsibility of herself and her allies for causing all the loss and damage to which the allies have been subjected as a consequence of the war imposed upon them by the aggression of Germany and her allies. The allies require her to make compensation for all damages caused to civilians.

Germany further binds herself to repay all sums borrowed by Belgium from her allies up to Nov. 11, 1918, handing over to the reparation commission 5 per cent gold bonds falling due in 1926. The total obligations of Germany to pay is to be determined and notified to her not later than May 1, 1921, by an interallied commission, and a schedule of payments to discharge the obligation within thirty years shall be presented.

Germany shall pay within two years \$5,000,000,000 with the understanding that certain expenses, such as those of the armies of occupation and payments for food and raw materials, may be deducted at the discretion of the allies.

Bond issues are to be required of Germany in acknowledgment of its debt as follows: \$5,000,000,000 payable not later than May 1, 1921, without interest; \$10,000,000,000, bearing 2½ per cent interest between 1921 and 1926, and thereafter 5 per cent, with a 1 per cent sinking fund payment beginning in 1926, and an additional amount of \$10,000,000,000, bearing interest at 5 per cent.

Shipping—Germany agrees to cede all merchant ships of 1,600 tons gross and upward; one-half of her ships between 1,000 and 1,600 tons gross, one-quarter of her steam trawlers and one-quarter other fishing boats, to be delivered within two months to the reparation commission, and further agrees to build merchant ships not exceeding 200,000 tons gross annually during the next five years.

All ships used for inland navigation taken by Germany from the allies are to be restored within two months.

Devastated Areas—Germany undertakes to devote her economic resources directly to the physical restoration of the invaded areas.

Coal, etc.—Germany is to deliver specified amounts of annual production to France, Belgium, and to Italy at prices to be fixed as prescribed in the treaty. Provision is also made for delivery to France annually for three years 35,000 tons of benzol, 50,000 tons of coal tar, and 30,000 tons of sulphate of ammonia.

Dyestuffs—Germany is to give option on dyestuffs

and chemical drugs and quinine, at prices fixed by the reparation commission.

Cables—Germany renounces all title to specified cables, which will be credited to her against reparation indebtedness.

Special Provisions—Germany is to furnish to the University of Louvain manuscripts, early printed books, maps, etc., to be equivalent to those destroyed of the Library of Louvain. In addition, Germany is to deliver to Belgium other noted works of art.

Germany is to restore within six months the Koran of the Caliph Othman, formerly at Medina, to the king of Hejaz, and the skull of the Sultan Mkwawa, formerly in German East Africa, to his Britannic majesty's government.

PART IX—Finance—Powers to which German territory is ceded will assume a certain portion of the German pre-war debt. In view, however, of the special circumstances under which Alsace-Lorraine was separated from France in 1871, when Germany refused to accept any part of the French public debt, France will not assume any part of Germany's pre-war debt there, nor will Poland share in certain German debts incurred for the oppression of Poland.

Mandatory powers will not assume any German debts or give any credit, for German government property.

Germany is required to pay cost of armies of occupation, this cost to be a first charge on her resources. The cost of reparation is the next charge. She is to deliver all sums deposited in Germany by Turkey and Austria-Hungary, and to transfer to the allies all claims against Austria-Hungary, Bulgaria, or Turkey in connection with agreements made during the war.

Germany confirms the renunciation of the treaties of Bucharest and Brest-Litovsk.

Germany agrees to reimburse all sums for the sale of coffee belonging to the State of Sao Paulo, Brazil, in the various German ports, and Antwerp and Trieste.

PART X—Economic Clauses—Customs—For six months Germany shall impose no tariff duties higher than the lowest in force in 1914, and for specified products or articles this restriction obtains for two and a half years, or for five years unless further extended by the League of Nations.

Shipping—Ships of the allies shall enjoy the same rights in German ports as German vessels.

Unfair Competition—Germany is to give the trade of the allies adequate safeguards against unfair competition.

Treatment of Nationals—Germany shall impose no exceptional taxes or restriction upon the nationals of the allies. Germany agrees to recognize any new nationality acquired by her nationals under the laws of the allies, all consuls and other officials appointed by the allies, and to admit them to exercise their duties with usual rules and customs.

Treaties—Forty multilateral conventions are renewed between Germany and the allies, with several exceptions.

Great Britain and the United States, as to article 3 of the Samoan treaty of 1899, are relieved of all obligation toward Germany.

Each state of the allies may renew any treaty with Germany consistent with the peace treaty by giving notice within six months. Treaties entered into by Germany since Aug. 1, 1914, with other enemy states are annulled.

The HONOR ROLL

Opium—The contracting powers agree to bring the opium convention of Jan. 23, 1912, into force by enacting within twelve months of the peace the necessary legislation.

Pre-War and War Debts—A system of clearing offices is to be created within three months, one in Germany and one in each allied state, for the payment of pre-war debts, and for the adjustment of the proceeds of the liquidation of enemy property and other obligation.

Property, Rights and Interests—Germany shall restore or pay for all private enemy property damaged by her, the damages to be fixed by the mixed arbitral tribunal. The allies may liquidate German private property within their territories as compensation for property of their nationals not restored or paid for by Germany, for debts, and for other claims against Germany.

Contracts, Prescriptions, Judgments—Pre-war contracts between allied nationals excepting the United States, Japan and Brazil, and German nationals are cancelled. Mixed arbitral tribunals shall have jurisdiction over all disputes as to contracts concluded before the present peace treaty.

Fire insurance contracts are not considered dissolved by the war, but lapse at the date of the first annual premium falling due three months after the peace.

Life insurance contracts may be restored by payments of accumulated premiums with interest, sums falling due on such contracts during the war to be recoverable with interest. Marine insurance contracts are dissolved by the outbreak of the war.

Any allied power, however, may cancel all the contracts running between its nationals and a German life insurance company.

Mixed Arbitral Tribunal—Shall be established to decide matters within their jurisdiction relating to contracts and other questions.

Industrial Property—Rights as to industrial, literary, and artistic property are re-established, the special war measures of the allies are ratified, and the right reserved to impose conditions on the use of German patents and copyrights when in the public interest. Pre-war licenses and rights to sue for infringements committed during the war are cancelled, except as between the United States and Germany.

PART XI—Aerial Navigation—Aircraft of the allies shall have liberty of passage over and landing in Germany.

PART XII—Ports, Waterways and Railways—Freedom of Transit—Germany must grant free transit through her territories by rail or water to persons, goods, ships, carriages, and mails from or to any of the allied powers, without customs or transit duties, undue delays, restrictions or discriminations based on nationality, means of transport, or place of entry or departure.

Navigation—Freedom of navigation shall be accorded nationals of any of the allies, on inland navigation routes of Germany.

Free Zones in Ports—Free zones existing in German ports on Aug. 1, 1914, shall be maintained.

Germany must cede to the allies certain tugs, vessels, and facilities for navigation on all following rivers.

International Rivers—The Elbe, the Vltava, the Oder, the Niemen, and the Danube are declared international, together with their connections.

The Danube—The European Danube commission re-assumes its pre-war powers with representatives of only Great Britain, France, Italy and Roumania. The upper Danube is to be administered by a new international commission.

Rhine and Moselle—The Rhine is placed under the central commission. Germany must give France all rights to take water to feed canals on the course of the Rhine between the two extreme points of her frontier.

Belgium is to be permitted to build a deep draft Rhine-Meuse canal within twenty-five years.

Czecho-Slovakia—Germany shall lease for 99 years to Czecho-Slovakia free zones in the ports of Hamburg and Stettin.

Railways—Germany agrees to co-operate in the establishment of through ticket services for passengers and baggage; to ensure communication by rail between the allied and other states; to allow construction or improvement of such lines as are necessary.

The Kiel Canal—Is to remain free and open to war and merchant ships of all nations at peace with Germany.

PART XIII—Labor—Members of the League of Nations agree to establish a permanent organization to promote international adjustment of labor conditions, to consist of an annual international labor conference; an international labor office, to be established at the seat of the League of Nations, as part of its organization. It is to collect and distribute information on labor throughout the world and to make periodical reports.

PART XIV—Guarantees—Western Europe—German territory west of the Rhine, together with the bridgeheads, will be occupied by allied troops for fifteen years.

If the conditions are faithfully carried out by Germany certain districts will be evacuated at the end of five years, other districts at the end of ten years, and the remainder, after fifteen years.

Eastern Europe—All German troops at present in territories to the east of the new frontier shall return as soon as the allies deem wise.

PART XV—Miscellaneous—Germany agrees to the decisions to be taken as to the territories of Austria-Hungary, Bulgaria, and Turkey to recognize the new states in the frontiers to be fixed for them, and to recognize the change of status of Upper Savoy and Gex district between France and Switzerland.

Definition of relations between France and Monaco placed on record.

Religious Missions—The allies agree that religious missions in territories belonging or ceded to them shall continue under control of the powers, Germany renouncing all claims in their behalf.

Done at Versailles, the 28th day of June, 1919.

SUMMARY OF TREATY TERMS GIVEN AUSTRIA

Frontiers—The northern frontier follows the existing boundaries separating Bohemia and Moravia from Upper and Lower Austria, subject to rectifications in the regions of Gmund and Feldsberg and along the river Moravia.

The frontier with Italy begins at the Reschen Pass and follows the watershed of the Inn and the Drave rivers on the north and the Adige, Piave, and Tagliamento rivers on the south. This line, which runs through Brenner Pass and the peak of the Signori (Dreierherrenspitze), includes in the Italian frontiers the valley of Sachsen and the basin of Tarvis.

East of the Tarvis region the line follows the Karawanken mountains to a point southeast of Villach, then runs north to the Worthersee, the towns of Klagenfurt and Volkermarkt, thence along the north of the Drave so as to leave to the Serb-Croat-Slovene state Marburg and Radkersburg, north of which latter place it will join the Hungarian frontier.

The disposition of the Klagenfurt basin will be determined by a plebiscite.

If the population votes for union with Austria, the southern frontier of Austria will continue along the Karawanken mountains to a point southeast of Eisenkappel, thence northeast passing east of Bleiburg, traversing the Drave just above its confluence with the Lavant, then rejoin the frontier already traced. The western and northwestern frontiers facing Bavaria, the western frontier facing Switzerland and the eastern frontier facing Hungary remain unchanged.

Europe—The high contracting parties recognize and accept the frontiers of Bulgaria, Greece, Hungary, Poland, Roumania, the Serb-Croat-Slovene state and the Czecho-Slovak state as at present or as ultimately determined.

Austria renounces in favor of the allies all her rights and titles over territories formerly belonging to her.

The Czecho-Slovak State—Austria recognizes the independence of the Czecho-Slovak state, including the autonomous territory south of the Carpathians, in conformity with the action already taken by the allies. The exact boundary between Austria and the new state is to be fixed by a field commission.

The Serb-Croat-Slovene State—Austria similarly recognizes the independence of the Serb-Croat-Slovene state and renounces her rights and titles. A field commission is to fix the exact boundary. The question of the basin of Klagenfurt is reserved.

Roumania—Roumania agrees to a similar treaty for protection of minorities and freedom of transit.

Russia—Austria is to recognize the independence of all the territories which formed part of the former Russian empire. She is to accept the annulment of the Brest-Litovsk treaty and of all treaties or agreements concluded since November, 1917, with all governments or political groups in territory of the former Russian empire.

Austria undertakes to bring her institutions into conformity with the principles of liberty and justice, and acknowledges that the obligations for the protection of minorities are matters of international concern over which the league of nations has jurisdiction. She assures complete protection of life and liberty to all.

All Austrian nationals without distinction of race, language or religion are to be equal before the law.

Austria accepts all arrangements which the allies make with Turkey and Bulgaria.

Outside Europe—Austria renounces all rights, titles and privileges as to her own or her allies' territories to the allies.

The clauses as to Egypt, Morocco, China, and Siam are identical with those of the German treaty except in the case of China.

The military clauses are reserved.

Naval—All Austro-Hungarian warships, submarines, and vessels are declared to be surrendered to the allies. All warships and submarines under construction shall be broken up. All naval arms, ammunition, and other war material shall be surrendered to the allies.

The wireless station at Vienna is not to be used for three months, but only for commercial purposes under supervision.

Air Clauses—Austria may have no military or naval air forces, including dirigibles, must demobilize all existing forces and must surrender wide categories of aviation material.

The section on reparation is reserved.

The financial clauses are reserved.

Economic clauses are similar to those of the German treaty.

Freedom of Transit—The clauses as to freedom of transit are the same in the Austrian as in the German treaty.
